## GERMANS HURL GAS AND TEAR PRODUCING SHELLS

British Front Line and Supporting Trenches Heavily Bombarded—Ships Sunk

Apparently the Germans are preparing for further attacks in an effort to check the allied offensive in northern France.

### Intense Bombardment

London today reports an intensive bombardment of the British lines at places, gas shells and tear-producing projectiles being freely used. The British guns are replying vigorously. The afternoon bulletin from Paris ignores the Somme front, where the French presumably are busy consolidating their positions on the ground won from the Germans in Thursday's assault.

### German Attacks Repulsed

In the Verdun sector the Germans attacked a French position south of Dambloup, northeast of the fortress, but were repulsed. They are heavily bombarding the Fleury and Fumignol wood sectors in this region.

German attacks on French trenches at Fille Morte in the Argonne and northeast of St. Die in the Vosges were repulsed.

### More Vessels Sunk

Berlin announces the sinking by German submarines on July 17 of six British trawlers off the English east coast. The British steamers Wolf of 244 tons and Karna of 2354 tons and French steamer Catois of 1200 tons have been sunk.

### STRONG GERMAN ATTACK NORTHWEST OF ST. DIE IN THE VOSGES REPULSED

PARIS, July 22, 12.30 p. m.—A strong German attack northwest of St. Die in the Vosges was repulsed last night by the French. The war office report of today says. On the Verdun front

## Four Trains Take Over 4000 Employees to Boston—Parade to Rowes Wharf—Three Special Boats to the Beach at Nantasket—Fine Program of Sports—At the Beach

It looked as though all the young men and women of Lowell were deserting the city this morning, when over 4000 employees of the U. S. Cartridge company made for the Middlesex street depot to take the special trains for Boston and from there by boat to Nantasket. Every car going in the direction of the depot was crowded with happy young men and smiling young women in gay dresses, all filled with the thought of throwing care to the winds and getting together in one grand jollification. For once the weather man was a jolly good fellow and from morning to night he turned on the sunshine and summer breezes and made everybody supremely happy. The outing was another triumph for the U. S. Cartridge company and it served to advertise Lowell all over Boston and afterwards at the beach.

### At the Depot

The scene at the depot for an hour before the departure of the last train was very exciting, and a large crowd

had gathered to see the excursionists off. The first train left at 8 a. m. and there was one grand rush for places. Owing to careful preparations, however, there was not the slightest confusion and the four trains were run off on schedule time. Members of the committee on arrangements sold the special tickets through to Nantasket and return, and handled the crowd so that all got seats without the slightest confusion. There was no need to arouse enthusiasm, and those in charge were urging the crowds to keep from cheering, etc., until the sailing was under way. Needless to say the lid was off in Boston, and cheers for the officials and for the company rang out along the route of parade and at Rowe's wharf. The last train left on time at 8.30 and even then some stragglers had to hustle some before catching the train. Prominent among those handling the crowd in Lowell was F. C. Pelletier, head of the traffic department who is about to take up his

old position with the Boston & Maine railroad. There was a great deal of informal gaiety in the cars and the musical talent was made the most of in short order. Most of the fellows had their girls along, and there was a real fun-ny feeling among the employees. In one of the cars there was a fine concert by the sextet of the bullet department, consisting of Eddie Reed, George Palmer, Joe Bradley, Jack Shaunessey, Mike Flynn and Charlie Wright. There was not a single accident to mar the pleasure of the excursion, only that Bill Corcoran got excited and forgot the parade banner. Somebody else remembered, and it was proudly carried through the streets of Boston a little later.

### Boston Parade

It looked like "Preparedness" day in Boston when the trains got in. The crowds from the earlier trains gathered in the depot and on Causeway street and the alert Boston folks knew that

Continued to page five

undersea trader Bremen, which was destined to appear in Boston waters before daybreak, according to marine prophets.

Extraordinary measures were being taken to welcome the submarine. The precautions will make it impossible for anyone to approach the vessel until she has been admitted finally.

The customs boat Dreamer patrolled the harbor to the three-mile limit line. The police boat Guardian patrolled all night the police harbor lines, extending from Point Allerton to Short beach.

The customs officials were still on watch early this morning, with orders to notify Collector of the Port Edmund Billings at once of the Bremen's appearance.

All these preparations for the reception of the Bremen—the second of the Deutschland type, but understood to be bigger—there are outstanding several contradictory conditions. These are:

Oskar Kunhardt, the German consul, has heard nothing of her coming into Boston.

Persistent reports of the Bremen being sighted en route to Newport. No word has been received officially of her destined port.

GAMES POSTPONED

## CIVIL SERVICE MAN ENTERS THE ARENA

Patrick Reynolds Takes a Hand in City Hall Deal—Says Alleged Shortage of Laborers is Bunco

Patrick Reynolds, the civil service man at city hall claims there is no such thing as a scarcity of help in the street department, and to a Sun reporter this morning he stated he has a list of over 500 names of men who are now awaiting an opportunity to go to work for the city.

Mr. Reynolds said Mr. Morse never went to him for one man since the

civil service was adopted in this city and furthermore he states that about 350 men have been dropped from the street department payroll from Nov. 17, 1915 to May 26, 1916, and he avers that unless the men have been discharged for cause, they can be placed at work again. When the civil service was adopted in this city, the commis-

## DR. HARRIS GAINS IN POLICE COURT

Expected to Survive Wounds Inflicted by Dr. Atwood  
Man From New Hampshire Was Bound to Go to Jail

BOSTON, July 22.—Dr. Wilfred E. Harris was much improved today in the opinion of the attending physicians and hope was strengthened that he would survive the wounds inflicted by Dr. Elbridge Atwood, Tuesday. The police are continuing their efforts to establish a connection between the shooting of Harris and the death by poisoning of a few hours before of Dr. Celia P. Adams. Atwood says that Harris prevented his marriage to Miss Adams and that he attacked the other physician when he learned that his fiancée was dead, supposedly a suicide. So far as known the police have made little progress and they anxiously await the time when the condition of Dr. Harris will permit him to tell his side of the story. Atwood is in jail awaiting a hearing on July 28.

Albert K. Bolton was arraigned before Judge Enright in police court this morning on a complaint charging him with assault and battery on Hazel W. Croxford on July 19th at Bellerica. He entered a plea of not guilty but after the testimony, which was carried on in

## MILLION DOLLAR FUND

"DRY" ALREADY HAVE \$250,000  
SUBSCRIBED FOR THE COMING CAMPAIGN

CHICAGO, July 22.—A million dollar campaign fund of which \$250,000 has already been subscribed, is planned by the prohibition party, according to a statement by Daniel Poling of Boston, who, with former Gov. J. Frank Hanly of Indiana, presidential nominee of the party, arrived here today. Other leaders and delegates who attended the national convention at St. Paul, including Ira Landrith of Tennessee, who was nominated for vice president, also were in the party.

Mr. Poling, who was temporary chairman of the convention said that one individual has already given \$50,000 which alone, he said, was \$10,000 more than the prohibitionists ever have spent in a campaign.

## WILL OF HETTY GREEN

ADMITTED TO PROBATE AT BELLOWS FALLS, VT., WITHOUT CONTEST

BELLOWS FALLS, Vt., July 22.—The will of Mrs. Hetty Green was admitted to probate here today without contest, leaving the entire estate to her son, Col. Edward H. R. Green, and daughter, Mrs. Arthur Astor Wilks. Col. Green filed a bond for \$50,000 as trustee for the fund left his sister.

Edward L. Walker and Charles I. Capron of Belows Falls were appointed commissioners of the estate, and Mr. Walker will also act as agent of service.

Col. Green's attorney, Charles W. Pierson of New York stated that he anticipated action by the state of New York to collect if possible an inheritance tax on the estate, though Mrs. Green claimed a legal residence here. The state of Vermont claims to inheritance tax on estates valued from parents to children. The exact amount left by Mrs. Green is not a matter of public knowledge as the state law does not require this to be shown.

## WILLIAM J. MOONEY DEAD

POPULAR YOUNG LETTER CARRIER WAS VICTIM OF ACUTE INDIGESTION

William Mooney, aged 30 years, and residing in Central street, was stricken on with acute indigestion about 11.30 o'clock last night near the corner of Beacon and Third streets. He was removed in the ambulance to St. John's hospital, where he died at noon today. Mr. Mooney was a young man of clean character, upright and honest in all his dealings and a loyal friend, and his sudden death will cast a gloom over a wide circle of friends who but yesterday looked upon the deceased as in apparently perfect health. Among his close associates was a charming companion and could while away many pleasant hours at the piano which he played with some skill. He was a sub-letter carrier at the local post office and a devout member of the Sacred Heart church. His death at the age of 30 years cuts off in the bloom of young manhood a splendid young man.

Deceased is survived by three brothers, Philip F. James P. and Michael and two sisters, Mary J. Mooney and Mrs. John E. Lowney.

## MANY OUTINGS

Factories and Churches  
Have Outings at Beach and Grove

Outings at the beaches were held by many of Lowell's manufacturing establishments today, many special cars leaving Merrimack square filled with merry-makers off for a day's enjoyment. The threatening weather and the clouds that hid Old Sol from view during most of the forenoon was out for a jolly good time. The employees of the Shaw Stocking Co. enjoyed a whole holiday. Leaving Merrimack square on the special cars, the 100 or more young people journeyed by trolley to the Bay Line wharf, Boston. Then they boarded a waiting boat and went to Essex Point. At noon dinner was enjoyed in a popular hostelry, after which the sights at the beach were taken in. Early this afternoon the stocking makers went by boat from Bass Point to Revere. The roller coasters and other amusements along the boulevard were liberally patronized by the Lowellites all afternoon. The special cars will leave Revere for Lowell this evening.

Spaulding Shoe Shop  
The Spaulding shoe shop held its annual outing at Revere beach today.

## BIG SUBMARINE SIGHTED

Reported Off Bridgeport—Allied Warships Await Departure of Deutschland

BRIDGEPORT, Conn., July 22.—Theodore Judson, keeper of the Stratford lighthouse, reports sighting at 9.45 a large submarine, bound east. The vessel is larger than the United States navy submarines, he says.

Commander R. H. M. Robinson, general manager of the Lake Torpedo Boat company, says that the G-3, a United States submarine which came to the Lake shipyards for repairs, left this morning for New London.

LITTLE ACTIVITY  
BALTIMORE, Md., July 22.—Little activity was noticeable this forenoon about the pier where the German submarine Deutschland is moored already. It is believed, to start on her return voyage to Germany with a cargo of nickel and crude rubber.

The tug Thomas F. Timmins, which met the under-sea craft at the Virginia capes, was lying alongside, as she has been almost constantly during the

past week with a full head of steam up.

ALLIED WARSHIPS ON WATCH  
NORFOLK, Va., July 22.—Allied warships off Cape Henry awaiting departure of the German submarine Deutschland, after a night of slow cruising during which their searchlights were played over the entrance to the capes frequently, at daylight today quickened their speed and resumed their regular north and south patrol.

It is estimated that the ships are today from eight to ten miles out. At one time last night one of them, presumably a French ship, moved in to within five miles of Virginia beach, coming closer to shore than she had at any previous time. It was impossible at that distance to determine her identity. She had four funnels. The other ship, which is of a darker color and is supposed to be British, carries three funnels.

Despite reports from Baltimore that Count von Bernstorff plans to visit the Deutschland next Wednesday, German sources here maintain it will be far out in the Atlantic by that time. Furthermore they say the Bremen then will be in some American port.

WATCHING FOR BREMEN  
BOSTON, July 22.—At midnight the waterfront was alert, as not in many years, for the arrival of the German

## HIBERNIANS' CONVENTION

BOSTON, July 22.—Yesterday afternoon's developments brought out the fact that there is a contest for national officers of the Ancient Order of Hibernians, and two sets of officers were nominated at a session which lasted five hours. This was not expected.

The candidates for office for the ensuing term of two years are as follows: For president, Joseph McLaughlin of Philadelphia, present holder of the office, and Prof. Michael J. Rohan of Marquette university, Milwaukee, Wis. Prof. Rohan is also chairman of Irish history of the order.

Judge a Candidate  
For vice president, Patrick F. Cannon of Clinton, Mass., present holder, and Judge James J. Deary of Indiana.

Mr. Cannon was elected to the office of vice president at Norfolk, Va., two years ago.

For secretary, Frederick J. McLaughlin of Jamaica Plain and Thomas J. Matthews of Providence, R. I. Mr. McLaughlin is the Suffolk county president of the A.O.H. and is very popular all over the state, as well as having a host of Hibernian friends all over the country.

For treasurer, Michael W. Delaney of Chicago, present national treasurer, and Patrick F. Carr of Washington, D. C.

The candidates for national directors are: Edward R. Hayes of New Brunswick, N. J., and James Clancy of Indianapolis, Mich.; John E. Healey of Wilmington, Del.; Myles McPartland of Brooklyn, N. Y.; Philip J. Sullivan of Thompsonville, Conn.; Thomas J. Robinson of Maine; Rev. John Moran of Youngstown, O., and John J. O'Connor of Holyoke, Mass.

Peter J. Doyle of Montreal was nominated for Canadian vice president.

The delegates to the convention of the Ladies' auxiliary, A.O.H., spent the entire day listening to the reading of the report of Mrs. Mary F. McWhorter of Chicago, chairman of Irish history.

The delegates remained in session from 9 in the morning until about 7:30 at night, with only a half-hour for lunch. This was done for the purpose of making nominations for a full set of officers for the ensuing term of two

years, but it was decided not to hold a night session.

It is said that there is a hot contest for national officers of the Ladies' auxiliary. Nominations will be made some time today. The delegates were called to order at 8 o'clock this morning. All the present officers retire under the constitution, having served two terms.

Among the candidates for national officers in the Ladies' auxiliary are: For president, Mrs. Mary F. McWhorter, the present chairman of Irish history, and Miss B. A. Mahoney of Laurium, Mich., the present vice president. Mrs. McWhorter was a candidate for president against Mrs. Ellen Ryan July, the present incumbent, two years ago at Norfolk, Va.

For vice president, Mrs. Adela Christy of Cleveland, O., the present secretary, and Catherine E. Foley of New Haven, Conn., state president of the Ladies' auxiliary of Connecticut.

Mrs. Sarah McNamee of Medford is the only New England woman candidate for the office of national secretary.

There is a contest on for members of the national board of directors of this organization, and it is said that there will be a fight to the finish between the various candidates for the various offices.

Resolutions were adopted pledging loyalty to the United States, the last paragraph of the resolution reading: "We shall never shrink from the duty we owe to the republic, whether that duty calls our labors to the forges of peace or to the fields of conflict."

The delegates pledged their allegiance to the Catholic church, and promise to aid in the extension of that faith. Indorsement was also given to the Federation of Catholic societies as the first of all influential Catholic organizations.

A memorial church to the Rev. Abram Ryan, the poet-priest of Mobile, Ala., the establishment of a home for aged Hibernians, and gifts to the Catholic Church Extension society, were also included in the resolutions. The resolution on "Hyphenated Americans" declared that the political circulation of the catch phrase is aimed mischievously at Irish-Americans.

ONE THOUSAND YEARS OLD  
SANTA FE, N. M., July 22.—The discovery of a hitherto unknown community house estimated to be a thousand years old, at Otowi, the prehistoric settlement 30 miles west of Santa Fe, was announced yesterday by Mrs. L. Wilson of Philadelphia, in charge of an archaeological expedition of the Philadelphia Museum.

## WEATHER FORECAST

WASHINGTON, July 22.—The forecast for the North Atlantic states for the week beginning Sunday, issued by the weather bureau today, predicts moderately warm and generally fair weather with local thunder showers probable Monday or Tuesday.

## OPTICAL ASSOCIATION

PROVIDENCE, R. I., July 22.—Harry J. Corvelli of Bangor, Me., was elected chancellor of the scientific section of the American Optical association to succeed himself at the annual meeting held here today. Other officers elected were as follows: Vice-chancellor, R. W. Gwillim of Meriden, Conn.; registrar, Emil H. Arnold of Ann Arbor, Mich.; librarian, S. H. Robinson, Kansas City, Mo. The convention will close today.

## PRICE OF PAPER POPULAR CRUISE

Federal Trade Commission Invites Publishers to Attend Hearing

WASHINGTON, July 22.—Newspaper publishers throughout the country were invited today by the federal trade commission to be represented here Aug. 1 at 10 a. m. at a hearing on whether there has been undue increase in the price of news print paper. The commission will conduct an exhaustive investigation of which the public hearing will be the first step.

The investigation was ordered by a resolution of the senate. The commission has sent word to 200 daily newspapers and 400 weekly papers asking those who cannot appear to submit any information they may have in writing. The commission wants specific information of prices, quantities and any other facts bearing on the increase.

The commission is using all employees it has available to expedite the investigation and expects to report to the senate by Oct. 1.

The commission asks that any newspapers not receiving a copy of the schedules it is sending out, apply for them or forward any information to the secretary.

STRIKE AT RENDERING WORKS  
Between 35 and 40 employees of the South Lowell Rendering works went on strike last night after they had been refused a ten per cent. increase in wages. It was expected that there might be trouble this morning when other employees reported to work, but Officer Henry D. Livingston and three other members of the Billerica police were on hand and everything was orderly.

In conversation with a representative of The Sun, Supt. J. L. Henderson said that the company would not agree to the demands of the strikers and that the works were running today and that new men would be employed next week.

## BRITISH STEAMER ASHORE

MURORAN, Japan, July 22.—The British steamer Penrhyn Castle, from Baltimore, May 31, via Newport News and Comox, for Vladivostok, is ashore near here.

Sec'y Daniels Describes Object of Naval Cruise for Civilians

WASHINGTON, D. C., July.—Enrollment of civilians for the forthcoming cruise on United States warships is proceeding with indications that the experiment is popular, and there is no doubt that the full quota of two thousand citizen sailors, ranging all the way from 18 to 65 years of age, will be ready to carry their dunnage bags aboard the practice fleet on Aug. 15. The men will board the ships at the ports nearest their home, and in the month's duration of the cruise will be given experience in almost every form of naval life from swabbing decks to driving big guns. The enrollment thus far shows men of all trades and professions, many prominent and wealthy, who are enthusiastic over this new plan of naval preparedness. Assistant Secretary Roosevelt of the navy department expects to spend at least some of the month as one of the citizen bluejackets.

Rear Admiral J. M. Helm, who is at present in charge of the naval militia cruise, will be commander-in-chief of the civilian cruise also, and will use the same warships. The vessels, and the ports from which they will sail, are: the Virginia, from Portland, Me.; the Kearsarge, from Boston, Mass.; the Illinois, from Newport, R. I.; the Kentucky, from New York city; the Rhode Island and Alabama, from Philadelphia; the Louisiana, from Norfolk, Va.; and the New Jersey, from Charleston, S. C.

The cruise will end Sept. 12 and during its last week will be held a mobilization and training cruise of yachts and motorboats. From Aug. 15 until Aug. 20, the citizen sailors will be practicing the training rendezvous at Tanglewreck, in Chesapeake bay, the gunnery practice ground of the Atlantic fleet. Target practice will be held by the training fleet from Aug. 27 to Sept. 5.

The object of the cruise is officially described by Secretary Daniels as follows: "For training volunteers to afford to civilians an opportunity to gain, by close contact with naval life and naval duties, some experience and understanding which will help them to perceive the way they may best fit themselves for service in the navy in time of need."

At the end of the cruise each volunteer will be given a certificate by Rear Admiral Helm specifying the duties he performed, efficiently displayed and the naval rating he is best qualified to fill. Volunteers also will announce the intention whether they will volunteer for naval service in case of war within the next four years.

Each volunteer is depositing but \$30 for the privilege of the month's cruise, the navy supplying uniforms and other naval clothing. The volunteers will be given substantially the same training as midshipmen from the naval academy during their training periods. They will sleep in hammocks; canvas bags will be their substitutes for the chiffoffers at home; they will help clean ship, polish brass work, assist in

the engine room and generally go through the rigorous duties of any jack tar.

Mixed with the work, however, will be much recreation and instruction. When conditions permit, the men will be allowed to go swimming twice daily, and hold rowing and sailing races, and inter-ship baseball games. Lectures and private instruction will be given daily by navy officers, in addition to the practical experience afforded.

The volunteers are to be organized, messaged and berthed separate from the regulars aboard ship and will not be required to pass coal work in the mess room, stoke boiler or do extremely laborious work which might too severely strain men of sedentary life, although all will be required to pass physical examination before embarking.

From daybreak until 9 p. m., a regular program of duties awaits the civilians, with almost every minute filled. Before breakfast two and a half hours' work will be the daily program of the citizen sailors. During the cruise they will be drilled and instructed in the 3 and 5-inch guns of the ships, in signaling, boating of all kinds, first aid, torpedo defense, quartermaster's duties, marine and electrical machinery, including radio work. Emergency drills, such as fire quarters, collision, "man overboard," and general quarters are also scheduled. The volunteers assigned to engineering duty will work in two-hour shifts from 5 a. m. to 3 p. m. All volunteers will be relieved from assignments to attend all drills and lectures.

Three divisions of the civilians will be formed, with sub-divisions under navy and volunteer officers. During the last week of the cruise all volunteers will have deck duties exclusively. Every volunteer will drill as a member of a gun's crew and all will participate in some capacity in the target practice.

The mobility of the practice fleet may be somewhat limited while in Tangier sound, as only their reserve crews will be aboard and their maneuvers will be confined to their reduced capacity.

From Sept. 5 to 12, the fleet will be proceeding to and at ports of embarkation, participating in exercises with the mobilized yachts and motorboats in problems of defense of naval districts. In co-operation with the cruising fleet, several hundred yachts and motor boats will hold maneuvers at Norfolk, New York, Philadelphia, Newport, Boston and Portland, Me. They will, after organizing, be given instruction in scouting, patrolling, signaling, maneuvering by signals, plotting and charting. The department plans the mobilization as an initial step toward a volunteer patrol service. The object of the week's work will be to organize, in a general way, the yachts and motorboats of the naval districts, and to give owners an idea of what would be required of them in time of war.

## FUSSY FRENCH WOMEN

PARIS, July.—Fine French perfumes are now being sold in ordinary drugists' vials, corked, instead of in artistic flacons with glass stoppers. This crisis is due to mobilization of glass workers in the north of France, and one of its revelations is that the art flacon has been representing a considerable part of the cost of perfumes. But among fastidious women the perfume does not smell so sweet when prosaically presented, and a result is a new industry—that of collecting old perfume bottles into which the essences may be transferred.

## THE CHILD LABOR BILL

SEN. HARDWICK CHARGES REPUBLICANS WITH PLAYING POLITICS —SEN. GALLINGER'S REPLY

WASHINGTON, July 22.—The child labor bill which President Wilson is urging for passage before adjournment of congress, got into the naval bill debate in the senate yesterday, when Senator Hardwick of Georgia charged that it evidently was the purpose of the republicans of the senate "to play politics with this great measure." He called attention to Republican Leader Gallinger's statement that republican senators were eager for its early passage.

"I had no such purpose," Senator Gallinger declared. "I made the statement because the people of the country want the bill passed."

Senator Hardwick declared the measure was unconstitutional and recalled that Senator Gallinger had said so last February. Mr. Gallinger replied that he still had doubt about its constitutionality, but was willing to vote for it and leave the question to the courts.

"There has been a great deal of change of mind about the constitutionality of this bill," said Senator Borah, republican. "The leader of the Georgia senator's party has changed his mind on that."

"Who is that?" asked Senator Hardwick, arousing laughter from his colleagues.

"The president of the United States," Senator Borah replied. "In one of his books Woodrow Wilson said such legislation was unconstitutional."

"Well, his book was right," Senator Hardwick asserted.

Senator Borah sought a unanimous consent agreement to take up the child labor bill as soon as appropriations were concluded, with debate limited to 12 hours on each side. Consideration of the proposal was blocked by Senator Swanson, who insisted on proceeding with the naval bill.

## NORTH SEA TRAGEDIES

LONDON, July.—That warships with physicians and nurses aboard should be held in readiness at ports of the North sea to guard against a repetition of the large and unnecessary loss of sailors by drowning during such a naval battle as that off Jutland, is the suggestion of the Norwegian newspaper, Morgenbladet.

The newspaper points out that physicians examining several of the German and British sailors washed ashore after the battle declared that the men could have been saved had they been picked up 24 hours earlier. The proposal is made that the Scandinavian government should open negotiations with both the British and German governments looking to the adoption of such measures as proposed for the saving of life after future engagements. The paper suggests that warships for rescue purposes be held in readiness at Christiansand, Gothenburg and Frederikshaven.

## ROLT STRIKES THREE TIMES

GRAFTON, July 22.—Lightning struck here three times last night. The house of Jule Dupuis, Oak street, a shed belonging to the Fisher Manufacturing company and an electric car on the Worcester Consolidated were hit.

The fire department was called out in each case and succeeded in extinguishing the flames before much damage was done. The electric car was struck at Wheeler bridge. None of the passengers were injured, except for slight shocks. The entire electric lighting system is out of commission.

## NAVAL BILL TO CONFERENCE

WASHINGTON, July 22.—The senate naval bill went to a conference committee of the two houses today with every prospect ahead for a long struggle over its increased building provisions. The house is expected to insist on its plan for only five capital warships, three less than the senate voted and to fight the senate's three years program.

## TO ENCOURAGE VACATIONS

WASHINGTON, July 22.—Comptroller Williams today announced that 901 employees of the country national banks and 10 per cent. of clerks in national banks of reserve and federal reserve cities have had no vacations for five years. The figures were obtained from reports solicited in an effort to encourage vacations so that books may be examined in employees' absence and possible defalcations prevented.

# GRAND CIRCUIT RACES

## Pacer Sets New World's Mark for Three Heats in a Race—Slaughter of Favorites

NORTH RANDALL, O., July 22.—In one of the greatest three-heat racing events ever staged, the Indiana Stallions G. yesterday won the free-for-all racing race, defeating the heavily favored Russell Boy and a high class field. Single G established a new world's record for three heats, beating the former mark by three-quarters of a second.

Three drivers felt the heavy hand of the judges because of their driving. The slaughter of the favorites continued, all four first choices falling to the wayside.

Russell Boy (200), Single G and R. H. Brett (50) each and the field (50) is a ramble pool on the fast pace. Hal Boy made the early going in the first heat, but the stretch battle was between Russell Boy and Single G, the former winning in 2:00 1-4.

Russell Boy set the pace in the second round, Gonnell keeping Single G in behind, but in a desperate stretch drive the Hoosier side-wheeler won. The time was 2:00 1-4.

H. Brett was favored to the front at the start of the third heat, but Single G and Russell Boy had the duel from the half.

At the distance stand, Russell Boy had distress signals up and Gonnell was looking over his shoulder at Murphy and taking his mount back at the finish in 2:01 1-4.

Worthy Prince Gets a Head  
The fastest previous three-heat race was won by Directum J at Syracuse in 1914. Frank Rogers, Jr., winning the first heat in 2:02 1-4, and the stallion the next two in 2:00.

Little Brown, the choice for the 2:05 trotting class, was soundly beaten by the local mare, Joan, a star stake winner six years ago.

Worthy Prince, the big stallion from the Cox stable, which was second to Peter Scott in the majority of the 2:15 trotting class, was sent off on a break in the first heat and finished well back when Donna Clay, a half-mile track mare, won in 2:07 1-2. The pair battled it out in the second and the mare again won. She broke in the

third and Worthy Prince cashed on the heat, but Donna Clay topped the full summary.

The 2:18 pacing class was won by the local gelding Castaway, Contention B winning the second heat. Young Todd was favorite, but caught the flag in the second heat. The summary:

WESTFIELD RACES POSTPONED  
WESTFIELD, July 22.—The Bay State Short Ship light harness races on yesterday's card were postponed on account of rain. It is planned to run off five classes today.

coaches who have succeeded in putting small colleges in prominent places on the eastern football map.

The recent report of the committee in charge of the building and management of the Yale bowl, the largest college football arena in the country, shows that the grounds and structure have cost almost \$738,000 to date and that another \$150,000 will be required to complete the project as originally outlined.

Monte Cross is responsible for a story of two base runners being put out by a batted ball. While playing with St. Louis, Cross was on second and Clements on the third. With two out and two on the batter both base runners started with the windup. The batted ball hit along the third base line winging Clements and the ball caromed off the latter's shin and struck Cross just as he reached third, both being declared out as the result of being hit by a batted ball.

In the case of at least two of the big university squads this preliminary activity is made necessary as the result of complete changes in the coaching system and personnel for the coming season. Both Pennsylvania and Yale will enter the football arena this fall with a new coaching corps in charge of the teams and the playing of the eleven under these mentors will be watched with more than the usual interest by both those affiliated with these universities and the general football fan.

At Yale, Tad Jones, who signed a three-year contract last winter, will be head coach. He will be assisted by Trainer Mike Sweeney, Arthur Bridges, and several others well known Yale players of the past with Walter Camp occupying his old time position of advisory coach and strategist. Jones, it is hoped by Yale men, will prove to be the Moses to lead the Eli football clan into the land of gridiron victories, a place which the Blue has seen but from afar in recent years.

Pennsylvania is in somewhat of a similar position and has selected Robert Folwell as the coach to bring again to Franklin field the gridiron glory which in former years was associated with the Red and Blue eleven. Folwell like Jones, has some excellent material to begin work with and will be assisted by Charles Wharton and By Dickson as well as other former Quaker players of repute. If Folwell's record as coach at Lafayette and Washington and Jefferson can be taken as a criterion, Pennsylvania will be a gridiron opponent to be treated with great respect during 1916.

At the other leading eastern institutions where football is accorded strong support, there will be little change in either the coaching staffs or the system in vogue during the past few years. Percy Haughton will not be able to devote his entire time to the Harvard squad during the early portion of the autumn, because his duties as president of the Eastern National League Baseball club will require much of his attention until about the middle of October. Leo Leary is expected to do much of the preliminary coaching, assisted by Charley Brickley and other Harvard stars of yesterday.

"Speedy" Rush will again be in charge of the Princeton football destiny assisted by a larger squad of graduates than was the case a season ago. This will be Rush's second year with the Tigers and, judging from the progress the team made under his instruction last fall, the Tigers should be formidable on the gridiron this autumn. At Cornell, Dr. H. S. Shagrir will face the task of developing another Red and White team capable of playing a game along the lines of Cornell's championship eleven of 1915. Dartmouth will also depend upon Frank Cavanaugh to maintain the high standards of the Hanover teams of the past few years. Glenn Warner will be back at Pittsburg and Foster Sanford at Rutgers in addition to several other

Among the stables represented are three American owners, W. K. Vanderbilt with 20 of the 60 horses he has in training at Saint Louis de Poissy, Jefferson Davis Cohn with about the same number, and T. P. Thorne with a dozen or so. Only ten French owners are represented.

If you want help at home or in your business, try The Sun "Want" column.

## INDIANS CARRY DOCTOR

LEE FOHL HAS HIS OWN BONES—SETTER WITH HIM ON THE ROAD WITH CLEVELAND

Lee Fohl, 1916 miracle manager, is an apostle of preparedness. Always plotting into the future, the leader of the Cleveland Indians has in prospect the novelty of conveying his own hospital corps with him on the road in the person of Dr. Charles Edward Moyer, registered practitioner and osteopath, whom the athletes call "The Bone-setter."

"Doc's" duties require him to be present at all times with the players to repair the malmed and injured, render first aid to the victims of charity horses and to replace muscles when they get out of kilter.

The new addition to the Cleveland machine was once a big league pitcher himself, having served with Washington in 1915. It was through trouble with his arm that he forsook the diamond and took up osteopathy which landed him his present situation.

When his arm went lame in 1911 and he was relegated to the minors, Moyer's troubles piled up. He remained with Springfield, Mass., three seasons, but during that time he was passing out two-dollar bills to doctors for relief. He finally decided to study osteopathy as the quickest and cheapest method of restoring his salary wing to working trim.

After protracted study Moyer passed the examinations, and last year he was able to pitch better than he had for four seasons. Fohl knew him when the former was manager of the Waterbury, Conn. club. Moyer, at that time, being with Springfield. When misfortune beset his players this spring Fohl asked his old pal to join the Indians as medicine man.

Chief among the patients already on Moyer's list are Stanley Coveleskie, Guy Morton and Terry Turner. Coveleskie, a constant workman in the box, was getting a lame arm, but Doc fixed it. Morton is rounding to nicely under the bone-setter's ministrations and Turner is back on watch at third after a three weeks' layoff with a twisted ankle.

AMATEUR BASEBALL  
The Senators of Haverhill would like to arrange games with any fast local amateur teams for August 15 or any date thereafter. The Senators have one of the fastest teams in Haverhill, winning the city championship in 1914-15. Write to Joseph Bourque, 67 1/2 Summer street, Haverhill.

The undefeated Beverly Farms A.C. desire a game with any local team. Phone 315-W Beverly after 5.

MATTY'S RECORD  
Christy Mathewson, now included among the common enemy, came to the Giants in 1900 from the Cincinnati club in exchange for Amos Rusie. Rusie at that time was as famous as Matty is today, while little was known of the "Old Master."

Matty's start with the Giants was not a brilliant one as he lost all three games that he pitched in 1900. But in 1901 he started out on his wonderful pitching career which enabled the New York club to win five National league pennants and a world's championship.

His great feat of shutting out the Athletics three times during the world's series of 1903 still stands unequalled. In his seventeen years with New York Matty won 371 games and lost 100 for a grand average of .665. His best season was in 1909 when he won twenty-five games and lost six for an average of .805.

He won his greatest number of games in 1908, the year that Mergle failed to touch second and the Giants lost the pennant by a game. In that year he took part in fifty-five games and won thirty-seven.

During his career with the Giants, the "Old Master" struck out 2,188 batters and pitched 782 passes to first. 4,232 hits were made off his delivery.

GERMANY'S STEEL PRODUCTION  
AMSTERDAM, July 22.—Germany's production of steel in the first six months of 1916 was 2,152,000 tons as compared with 2,152,000 tons in April and 2,152,000 tons in May 1915.

## SPEAKER STILL ON TOP

### Increases His Batting Average to .389—Robertson Holds Lead in National

CHICAGO, July 22.—Tris Speaker's big part in keeping Cleveland in the American league pennant race is shown by averages printed here today, including games played last Wednesday.

Speaker increased his batting average during the week to .389 and leads the hitters of his league in total bases with 163 and in runs scored with 67. Cobb is ahead in stolen bases with 22, Eddie Collins in sacrifice hits with 22, Baker in home runs with eight and Detroit in club batting with 256. The leading batters who have played in at least half the games are:

Speaker, Cleveland, .389; Jackson, Chicago, .360; Cobb, Detroit, .357; Burns, Detroit, .306; Hobbitt, Boston, .254; Shotton, St. Louis, .254; Nunamaker, New York, .293; High, New York, .285;

Strunk, Philadelphia, .284; Thomas, Boston, .252.

Heinie Zimmerman has batted his way to a tie for second place among the National league batters, he and Daubert hitting at .326, while Robertson is well in the lead with .340. Zimmerman also leads in total bases with 139. Casey, Pittsburgh, is ahead in stolen bases with 30, Flack, Chicago, in sacrifice hits with 27, Williams, Chicago, in home runs, with 10 and Brooklyn and Cincinnati in team batting with 254. The leading batters:

Robertson, New York, .340; Daubert, Brooklyn, .326; Zimmerman, Chicago, .326; Wagner, Pittsburgh, .325; Chase, Cincinnati, .325; Long, St. Louis, .314; Hornsby, St. Louis, .313; Wheat, Brooklyn, .308; Schulte, Chicago, .305; Hinchmann, Pittsburgh, .307.

## EASTERN LEAGUE COMMENT

Lowell at New London Monday and Tuesday.  
"Zeke" Lohman is due to pitch today.

Extra base hits were in order at yesterday's game.

Less than 2500 people turned out at Portland Wednesday when a booster's day was held. The papers expected that 5000 would be present. While the crowd was somewhat of a disappointment, many tickets not used were sold to business men.

Worcester has released First Baseman Volk and sent Gus Gardella back to the initial call. Volk is a fairly good hitter and will find a place on another Eastern League team.

Previous to yesterday Bridgeport had scored just one run in the last 10 innings played. Thursday's 13-inning, scoreless tie followed a 1 to 0 victory and a 2 to 0 defeat.

Southpaw King, who started the season with Lowell, has joined the Reds. He and team and lost a 1 to 0 game this week.

Roy Rock does not expect to remain with the Springfield club all season. He returned to the game simply to help out his old friend, Jack Flynn.

Lawrence passed up a chance to sign Harry Donovan early in the season, says an exchange.

Ring is making good  
Former Lowell twirler will get back in big league next season.

Jimmy Ring, the former Lowell twirler, is this season pitching sensational ball for the Utica club and writers in that section predict that he will be back in the big leagues next year. Jimmy, who is a Brooklyn boy, has already had tryouts with both the Yankees and Robins, but with the experience he has gained in the minor leagues in the last two years he should be ready to win a regular berth on one of the big league teams next season.

Ring will be remembered by Lowell fans as a star performer. When he left here, Duke Farrell of the Yankees said he was one of the best young pitchers he ever saw. He has a great drop ball and tremendous speed and was never in better condition than at present. He has won almost every game he has pitched for Utica so far, one of his latest accomplishments being two wins in one afternoon.

TENNIS TOURNAMENT  
NARRAGANSETT PIER, R. I., July 22.—The final in the singles of the Point Judith tennis tournament today brought together Ichu Kumagae, the Japanese player, and Watson Washburn, the former Harvard champion. In the final of the doubles Craig Biddle of Philadelphia, and G. Colket Caner of Harvard opposed Richard Harde and Watson Washburn of Harvard.

If you want help at home or in your business, try The Sun "Want" column.

BRITT DEFEATS M'RAE  
NEW BEDFORD BOY WON FROM CAMBRIDGE BOXER IN 10-ROUND BOUT—RESULTS OF CONTESTS

BOSTON, July 22.—Young Britt of New Bedford proved himself to be a clever boxer last night at the Commercial A.C., where he defeated Howard McRae of Cambridge in 10 rounds. McRae had nine pounds more weight, besides a big advantage in height and reach.

Britt scaled at 121 pounds, while McRae weighed 130. The former forced the boxing from the start, and jabbed and hooked McRae to the body, face and jaw. A couple of times he rocked and lefts.

When the pair were at close quarters Britt kept both hands working effec-

Made by Experts with Pure Spring Water in one of the Finest Bottling Plants in the World.

SOME dealers push out cheaply made goods with the idea of saving something at their customer's expense. Chelmsford costs more to make than any other brand in New England but there is no middleman, no inside price, no special rebate, no jobbers discount, no chain-store rake-off. One case or a thousand cases the price is the same to all DEALERS, wholesale or retail, and that price is the lowest that High Grade Goods can possibly be sold for. By passing these special discounts along to the consumer the extraordinary value of the Big 10 Cent 4 Glass Bottle is made possible.

The dealer whose policy is to save on the quality of the Ginger Ale he serves will undoubtedly practice similar economy on other commodities.

The SQUARE DEAL dealer serves Chelmsford without being especially asked for it. It costs him 20 to 40 per cent. more but the customers satisfaction is worth more to him than the extra profit on the cheap stuff.

The Square Deal Dealer is a Good Man to Trade with.

who is working in the game. If the playing backstop has batted last, and has to put on shin guards, and armor before warming up, Salles will never throw a ball to the plate to any man who may come out of the dugout with a mitt. He will throw either to the first or third baseman. Players on the Cardinals have known of this superstition of the lanky southpaw for years. When Steve Evans was in the Mount City he tried to join Salles out of it, but was unsuccessful. Slim would not take a chance with what he believes is his personal jinx.

The opening bout between Al Gerard of the North End and "Red" Kelly of Charlestown was a good curtain raiser. Both boys boxed at top speed all the time. Gerard was given the award at the end of six rounds.

The bout between Johnny O'Brien and Louis Leonard was another exciting one during the six rounds and was called a draw.

Johnny Wilson and Joe Farren will meet in the feature bout at the club next Friday night. Jim McDonald and Kenneth Salisbury will box in the semi-final. Tony Vatlin and Young Buckley will meet in one of the finals and J. Morris and Lee Downey in the other.

Pitchers boasting marks of 20 victories or better will be common this season, judging from the form displayed by several of the top liners of the two major leagues. Last year only five hurlers in the National league—Alexander, Mamaux, Moyer, Rudolph and Vaughan, scored 20 or more wins. In the American league the list included Scott, Faber, Johnson, H. Coveleskie, Dauss and Foster. With the present season less than half completed, seven pitchers in the American league have taken 10 games or more and four in the National league have done as well.

Clarence Rowland, the White Sox manager, says: "We are still in the fight and have a great chance to win the pennant, but we realize that the Yankees and Red Sox must be beaten before we can get into the world series. I agree with my players in the opinion that the Cleveland club will become anchored because they lack the necessary pitching strength. Detroit is similarly handicapped, but the Yankees and Red Sox are wonderfully strong in the box. So are the White Sox for that matter, and as the race progresses it will be a battle of pitchers all the way to the finish. I'll admit that the White Sox have one weak spot in the infield, but we have so much strength in the other positions that we expect to remain factors for the rest of the campaign."

A single by Herzog won for the Giants in a hard fought game with the Cubs.

Yesterday Jawn Evers celebrated his 33rd birthday by knocking in the run that won the game by a 4 to 3 score.

Eddie Cicotte is still winning games for the White Sox.

Being left-handed, Slim Salles is naturally superstitious. His pet superstition is that it is bad luck for him to warm up with any catcher but the one

Mr. Outdoor Man!  
Think about your summer Union Suit, before on some torrid August day, you strip coat and shirt to play a hot final with the fellow who has stood you even all the spring.

Then the gallery collects and the let-ins of your old style Athletic Union-Suit, (patch work garment, we call it) - work up into view.

# \$75,000 EMBEZZLEMENT ATTACKS GREAT BRITAIN

## National Bank Examiners and Neutral Diplomat Calls Blacklist Officers of New York Bank Conduct Investigation "Greatest Possible Tactical Blunder at This Stage"

NEW YORK, July 22.—National bank examiners and officers of the National Bank of Commerce and Merchants' Bank of New York today are conducting an investigation into the embezzlement of approximately \$75,000 by a trusted employee of the bank, it became known today. This name is being carefully guarded, and according to President Sproull of the bank, there is no present intention of prosecuting him.

"It is true," said Mr. Sproull, "that one of our employees stole about \$75,000 but the bank is fully protected by bonding companies which have already made good their obligations. As far as the bank is concerned, the incident is closed. We do not even intend to prosecute unless the bonding companies request us to do so."

LONDON, July 21, 7:50 p. m., delayed.—A neutral diplomat, exceptionally well informed regarding the details of the economic war which Great Britain is waging on the central powers, declared today to a representative of the Associated Press that he regarded the recent publication by the British government of the blacklist of certain American firms as "the greatest possible tactical blunder at this stage."

The diplomat, who is known to have been in London for some time, stated that it was quite possible the government had not placed certain American firms with close German connections on the list for the very good reason that they had provided for the allies in regard to the Anglo-French loan. On the other hand, he said, if other friends of the allies were suffering from the inclusion of some of their connections on the list, the British government was ready to make necessary amendments. Lord Robert Cecil, minister of war trade, stated today that it was quite possible the government had not placed certain American firms with close German connections on the list for the very good reason that they had provided for the allies in regard to the Anglo-French loan. On the other hand, he said, if other friends of the allies were suffering from the inclusion of some of their connections on the list, the British government was ready to make necessary amendments. Lord Robert Cecil, minister of war trade, stated today that it was quite possible the government had not placed certain American firms with close German connections on the list for the very good reason that they had provided for the allies in regard to the Anglo-French loan. On the other hand, he said, if other friends of the allies were suffering from the inclusion of some of their connections on the list, the British government was ready to make necessary amendments.

### MANY OUTINGS

About 75 employees left this city at 8:15 o'clock this morning and reached the beach about two hours later, just in time for a dip in the ocean, which proved one of the features. Following the swim, a shore dinner was partaken of, and the afternoon was spent in various ways. E. C. Baril of Ivy street was one of the chief workers on the committee in charge.

### Alpha Club Outing

The members of the Alpha Club held their annual outing at Revere. This affair is always anticipated with much pleasure by the residents of the Wigglesville section, where the club quarters are located. Two big jumbo cars started from Wigglesville square at 8:45 o'clock. A splendid program sure to provide amusement for all was arranged by the committee which was headed by George Allen of 15 Roper street.

### Swedish Lutheran Church

Pinehurst park, Billerica, was the spot chosen by the Swedish Lutheran church for the annual picnic. A number of the members and friends gathered at the corner of Gorham and Moore streets at 10 o'clock this forenoon and were conveyed to the entrance to the park in special cars. Baseball games, races and other sports featured the day with a basket luncheon at noon.

### Sunday School Picnic

The Sunday school of the Presbyterian church in Appleton street is holding its annual picnic at Mountain Rock today. Special cars for the grounds left Merrimack square at 9:15 o'clock this forenoon and at 2 o'clock this afternoon. Games were played, sports were enjoyed and there were many happy attractions. Rev. James M. Freig, pastor of the church, was present and assisted in making the affair a success.

### Other Outings

At 1:15 o'clock this afternoon the employees of the Lawrence hostility marched through Merrimack square on a special car bound for the beach. They will return at 2:30 this evening. Miss Coulombe headed the young women's charge. A car containing the employees of the mishing room of the Tremont & Sut-

### PATROLMAN AN INVESTOR

Among the United States patents recently issued, secured through the offices of Gen. Gardner W. Pearson, is one on a revolver known to Joseph V. M. Noye, the well known police officer.

This holster can be quickly attached to and detached from the pocket while the revolver is in place therein, it cannot be shaken out, but by a slight turn of the wrist, it can be withdrawn by the wearer.

### SPECIAL TOWN MEETING

The special town meeting for the election of a selectman to fill the vacancy caused by the death of Josiah Wright was held at Billerica today, the polls opening at noon. Owing to the fact that many people are away for the week end the voting was not heavy early this afternoon. There are two candidates for the office, Forrest Collier and Prescott Pasho. Both were in the field at the last annual election. The polls will close at 8 o'clock this evening.

### DIED VERY SUDDENLY

### MICHAEL DRISCOLL PASSED AWAY SUDDENLY YESTERDAY AFTER-NOON AFTER A BRIEF ILLNESS

The news of the sudden death yesterday afternoon of Michael B. Driscoll, proprietor of the White Way bowling alley in Middlesex st., came as a great blow to his many friends, several of whom had talked with him in the street earlier in the day. He had complained of not feeling well while at work yesterday afternoon and at once started for his apartments at 73 friends street but died soon after reaching there. His death was due to heart failure. He leaves one son, George Driscoll, and a sister, Jennie Driscoll. Mr. Driscoll came to Lowell from Ipswich. He was about 53 years of age. Besides the White Way bowling alley in Middlesex street, he was also owner of the Bridge Street alley and part owner of the Rockingham hotel, Salem, N. H.

Mr. Driscoll had many friends who will mourn his loss and others will miss his many kind acts of charity, for it can be truly said of him that to give was his greatest pleasure. Friends are made but not so easy to hold. Mr. Driscoll held them and year after year caused them to look upon him with greater and greater esteem. It had often been said of him, that his word was as good as his bond. His was a disposition that attracted all men in life, regardless of their station or their views, and made them glad to be in his company. His heart and hand went together to the limit in a service for a friend, and no service was too exacting to do, no sacrifice too great for him to make for a friend; while selfish motives never marred the doing of his act. May he sleep in peace.

### CIVIL SERVICE MAN

Continued

sloner Morse had a list of about 800 names to select from, the list being known as an original list, and when the commissioner needed help he picked the men he wanted.

In order to prove his statement, Mr. Reynolds showed the writer a letter from the civil service commission in reference to about 350 names having been dropped from the payroll, requesting the civil service man in Lowell to investigate and find out if the men had been discharged for cause.

### Civil Service Rules

The following are the civil service rules governing the employment of help for city departments, which have adopted the civil service:

Rule 12. Section 1.—Requisition and certification.—Whenever a commissioner or employing officer requires laborers he shall make requisition upon the commission, stating the number of men wanted, the exact nature of the work in which they are to be employed, the time and place and probable duration of employment and the way to be given. Upon such requisition the commission shall certify the names of any and all veterans upon the suitable, eligible list, and the employment must be made from the list so certified; provided that after the employment of veterans no requisition shall be made for the same standing highest upon the suitable eligible list twice the number of men called for, over and above the number of veterans, if any certified.

Section 2. Requisition for experienced persons.—This section provides that in case the employing officer shall request in his requisition the certification of persons with experience in the department, the commission shall give preference in certification (subject to the above preference to veterans) to all persons who have served six months in the department in the same position to which requisition is made, and who have not been removed or discharged for cause, or who have resigned without charges pending.

Section 3. Requisition for young men.—In case the employing officer shall in the requisition certify that the labor to be performed is so arduous as to require the services of young and vigorous men; and shall designate a maximum age limit, the commission may in its discretion recognize such age limit.

Section 4. Deals with cases where the commission is unable to fill a requisition, in which situation it may authorize the employing officer to make the selection under certain proper and reasonable restrictions.

### Rule Forty-Four

Another very important rule deals with the question of emergencies and provides that in case of an emergency which could not have been foreseen, where the public business requires it, the day in filling the position in the manner provided for in the foregoing rules the appointing officer may make an emergency employment without requisition; but in no case shall such emergency employment continue for more than five days, and in every such case he shall report the same to the commission within twenty-four hours, stating the reason therefor, in such form and detail as the commission may prescribe, and the time not exceeding five days for which such employment is to last.

### Wins His Point

City Solicitor Harold Varnum has practically won his point against the Nashua & Lowell railroad in the controversy which existed in reference to the taking by the railroad company of what is known as Old Ferry road in Middlesex Village for a freight yard. The railroad company has petitioned the public service commission for permission to close the lane, but there was strenuous objection on the part of old residents of the village and city officials.

Solicitor Varnum appeared before the public service commission Thursday and the matter was argued at length and finally the petitioners stated they would make a slight change in their proposed yard location so as not to interfere with present conditions in Old Ferry road.

### Will Build Addition

The Lowell Electric Light Corp. was today granted a permit from the office of the lands and buildings department for the erecting of a brick addition to its boiler room in Perry street. The new building will be one story high, 16 by 52 feet and will cost about \$5200.

### Death Report

This week's death report from the board of health office shows a slight gain in the number of deaths as compared with that of last week. Thirty-eight deaths were reported this week, as against 34 last week and 29 the week before. The death rate this week is 15.35 as against 16.63 last week and 14.19 for the week prior. The deaths as reported were as follows:

Under five years, 15; infectious diseases, 3; acute lung, 3; diphtheria, 1; tuberculosis, 3.

The infectious diseases reported during the past week were as follows: Diphtheria, 2; typhoid, 1; tuberculosis, 2; measles, 30. The number of measles cases has dropped considerably, however, for the week before 111 cases were reported as against 96 for the week prior. There was one case of infantile paralysis reported this week.

### Another Candidate

George Tyrrell of Birch street has taken out his nomination papers for representative.

### MONSTER OUTING

Continued

something wrong while was on. When the last train got into the North station, there was an immense crowd waiting outside to see the developments. Owing to the fine preparatory work of the committee and the instructions given all around the parade was formed in less than 10 minutes. First came a detail of mounted police from the Boston Post office, followed by special officers, James Ginnell, Tom McGreevey, Michael Wrenn and John Costello of the Cartridge company in uniform. Then came the U. S. Cartridge company band followed by the following officials: Mr. Gerald Cahill, supt.; Mr. William J. Robinson, assistant supt.; Mr. H. B. Cohn, business manager and Mr. Joseph Carney, night supervisor.

### Banner Told Story

The banner with its motto: "Outing of U. S. Cartridge Co. Lowell, Mass." was carried by Denis J. Sullivan and A. P. Souza, chairman and secretary respectively of the committee on arrangements, and then came the following members of the committee: Fred Burns, treasurer; William Corcoran, Edward Reed, John Cryan, John Masterson, Bert Chandler, James Brown, Walter Cox, Robert Dalton, Lawrence Mullin, Homer Ingham, Wales Nay, G. L. Lord, James Quen-

ter, Miss Clara Johnson, Miss Alice Verner, Miss Elizabeth Alexander, Miss Sue MacMenamin, Miss C. McVey, Mrs. S. Bombardier, Miss Alice Foster, Miss Rae Gilchrist, Miss Mary Shadwell, Harry Gordon, G. N. Taylor, Miss Mary Handley, Miss Mildred Joyce, Miss Mary Flynn, Miss Agnes Callahan, Miss Louise Ouellette, and the Misses Jennie Sinclair, Julia Shea, Josephine Grady, Vera Duffy, Kittie Fligg, Anna Russell, Mary McFadden, Margaret Lineham, Elizabeth Kelly, Anna Kelly, and Mary Dowling. Many dashing hussars in uniform were Palm Beach suits, including Andrew Souza and Dennis Sullivan, and Ed. Reed was not far behind with his mohair suit, not to mention Jack Leighton in spottless Rannels. One seeing the parade might easily take it to be some universally outfit, owing to the "class" which was as common there as the flowers that bloom in the spring tra-la.

The rank and file of the employees fell in behind the band and the line of over 4000 marched through Causeway Canal, Haymarket square, Washington street, the Robinson, Congress, Milk, Broad, Atlantic avenue and on to Rowe's wharf. A large crowd gathered along the line of march and the Lowell boys and girls were cheered at many points along the route. Arrived at Rowe's wharf, the marchers stopped and gave three ringing cheers for Messrs. Cahill, Robinson, Cohn, Carvey and other officials who seemed to enter heart and soul into the day's fun. The committee reports that the co-operation of the company was freely and gladly given to every detail of the preparation.

### Safety First

The committee had seen to it that the boats could not be overloaded, and the board of navigation had an inspector stationed at Rowe's wharf to see that safety would be ensured on the boats chartered for the occasion. At intervals during the parade a firing committee were stationed to urge the committee and the officials of the navigation company saw to it that the boats were not loaded beyond capacity. A boat from the Portland line was requisitioned to help the Nantasket boats in transporting the large crowd to Nantasket. Before the parade reached the wharf employees cleared the docks so that the Lowell group had a clear passage. Many Boston job-seekers had fallen in line en route and the parade made a fine appearance as it marched to the boats.

### At Nantasket

The headquarters of the outing at Nantasket was at the Nantasket hotel, where dinner was served at 2:30 p. m. The first thought of most on arriving at the beach was to get into the water and for these special bathing facilities had been arranged. They swarmed into the beach, the boys in the duds and for several hours the live Lowell crowd owned the beach.

### The List of Sports

The list of sports prepared by W. D. Corcoran, chairman of athletics, for Nantasket beach, was as follows:

Men: 100 yard dash, 1st prize, 1 club bag; second prize, pair 1-inch micrometer; second prize, pair cuff links and pin. 20 yard dash; 1st prize, 1 tourist case; 2nd prize, 1 pipe; 2nd prize, 1 pair cuff links. 500 yard swim; 1st prize, 1 silver cup; second prize, 1 stick; 3rd prize, 1 bathrobe; 4th prize, 1 pull throwing contest; 1st prize, 1 suit case; 2nd prize, 1 silk shirt; 3rd prize, 2 neckties. Tug of war. (8 men to a team); prize, 8 shirts. Fat men's race; 1st prize, 1 fancy vest; 2nd prize, 1 umbrella (silk); 2nd prize, 1 stick pin. Legged race; 1st prize, 1 pair cuff links each; 2nd prize, 1 straw hat. Women: 100 yard dash, 1 tourist case; 2nd, 1 cut glass bowl; 3rd, 1 pair tennis shoes. 100 yard swim race; 1st prize, 1 \$5 dress; 2nd prize, 1 ladies' brooch pin; 2nd prize, 1 fancy dolly. Ball throwing contest; 1st prize, 1 moon stone ring; 2nd prize, 1 silk umbrella; 3rd prize, 1 fancy vase. 3-legged race; 1st prize, 1 cut glass water set and 1 cut glass cracker jar. 2nd prize, 1 ladies' hand bag each. Tug of war (5 girls to a team); prize, 1 pair kid gloves to each. Egg race; 1st prize, 1 plant; 2nd prize, 1 umbrella (silk); 3rd prize, 1 pitcher.

A special exhibition 2-mile race was given by Joe Christie, arousing much interest among all on the beach and at the conclusion of the sporting events the long list of valuable prizes was distributed.

Provision had been made so that any who cared to leave after 3 p. m. could use the outing tickets, but it was figured that comparatively few would leave before the first special boat, which left at 7:15. Many of the excursionists had planned to make a week-end vacation of their outing and they stayed over until Sunday evening at Nantasket and other beaches. Needless to say, it was one of the largest, happiest, and best outings ever held from Lowell and all who took part in it are hoping that it will be again their good fortune to be on hand when the U. S. Cartridge company, Lowell, Mass., has a similar trip to the happy vacation land by the waves of Nantasket.

### SHARKS OFF NEW BRUNSWICK

CHATHAM, N. B., July 22.—The presence of sharks along the New Brunswick coast was reported in a despatch received here yesterday from Tabusintac and other places. At Tabusintac it was said the sharks had driven the seals on to the beach.

### SAILORS CATCH SHARKS

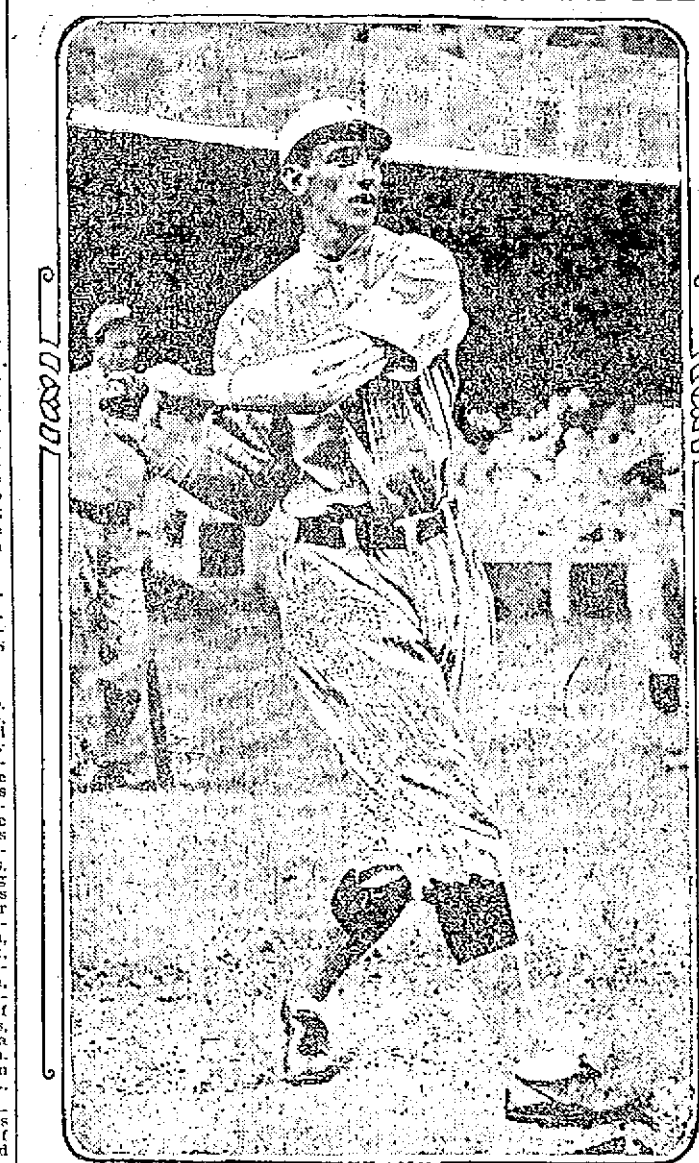

BOSTON, July 22.—Catching man-eating sharks has been the sport of the crew of the U.S.S. Eagle, which has arrived at the Portsmouth navy yard after being stationed in Haytian ports for about five months. Several members of the crew were in Boston yesterday and showed photographs of some of their prize catches.

Dozens of sharks were caught, and the sailors had some exciting sport in capturing some of the big fellows. One of the largest landed measured 11 feet 5 inches from fin to tail. It was captured in the harbor of Caymies in Hayti on April 28.

According to one of the Eagles' sailors' the man-eaters are caught by means of a large hook baited with raw meat. It is necessary to shoot them after they are hooked. The crew have captured the teeth of the monsters as souvenirs and they have quite a collection.

If you want help at home or in your business, try The Sun "Want" column.

## SCHULTE OF CUBS SAYS THAT HE'S FAR FROM BEING A HAS BEEN

CHICAGO, July 22.—Frank Schulte, the Chicago Cubs' veteran outfielder, is hot under the collar. Why? Well, some eastern baseball critic recently said that Frank was ready for the discard and would not be with the Cubs next year. One needs only to watch Schulte in a game or to study his averages to learn that he is far from being all in as a regular player. He is playing the game as well today as he did ten years ago and says so himself. "I do not feel a bit older than I did ten years ago," said Schulte the other day, "and I do not find it any harder to play ball. The game has not advanced so much since that time to make me take a back seat for any younger player, and you will find that I will be well up in the batting averages at the end of the season. I think I am giving the Cubs better baseball than I have for years because we have a manager for whom it is pleasure to work. Tinker, in my opinion, is one of the smartest leaders the Cubs have ever had, with the possible exception of Frank Selee, who was a wonder." Schulte has been with the Chicago team for fourteen years. Picture shows Schulte batting.

### FOUR ARRESTED

Alleged Automobile Thieves Taken by the Police at Ayer

Four members of a band of five, who it is alleged have been terrorizing Cambridge, Somerville and adjacent towns, were captured yesterday afternoon in Ayer by Chief P. J. Beatty of the police department and Officer Thomas F. Mullin. Two of the party were taken without much difficulty but the other two led the officers a merry chase through the woods for a couple of hours before being captured.

When booked at the police station, they gave their names as Daniel Driscoll and Thomas Sokoloski of Cambridge, Augustus Lenzie of Watertown and John J. Hill of Somerville. Their ages range between 15 and 18 years.

It is alleged that the quartet, together with a boy named Murphy, stole an automobile from Fred Towler's garage in Concord yesterday and drove through Littleton and when rounding a corner at North Littleton ran into a fence and wrecked the machine. The occupants of the car were thrown out and Lenzie, who it is alleged was operating the machine, received a cut over the eye. He went to a nearby house and Dr. Christie was summoned and took several stitches in the wound. After recovering the quiet disappeared.

In the meantime the loss of the machine was made known to the police of several cities and towns within a radius of 40 miles of Boston and Chief Lyons of the Concord police with two others started in search of the thieves, but they were unable to locate them.

When the accident happened at North Littleton the police of Ayer were notified, and having previously received information of the larceny, Chief Beatty and his assistant went over the road and came upon the five boys. They called to them to stop but instead of doing so the latter took to their heels, and separating, ran in different directions.

Driscoll and Hill were caught after a short but fast chase in the vicinity of Fountain square in Ayer and they were locked up. The officers then started after the other members of the party and after a short time caught two of the boys at a spot about a mile from the Concord square, and giving chase captured them after about two and a half hours. Upon seeing the police the boys entered what is known as Sandy Pond woods and they doubled on their trail and in all traveled nearly five miles before they were caught. They gave the names of Thomas Sokoloski and Augustus Lenzie.

Lenzie wore a bandage on his head and admitted that he had been driving the car and was the only member of the party who met with serious injury. According to the police, the five boys belong to a gang which congregates in what is known as "Brickbottom" in Somerville, just over the Cambridge line and Supt. Welch of this city, who was notified of the larceny of the automobile, stated to a representative of The Sun that from the information he had received two of the members of the party carried loaded revolvers and they had stolen four automobiles within a week and 20 jobs had been done in the vicinity of Somerville and Cambridge which are laid at their doors.

It is said that they stole an automobile in Somerville yesterday morning and upon reaching Concord, something happened to the car which they could not fix and they then entered the Tower garage and stole another machine.

In conversation with The Sun today, Chief Beatty of Ayer said that he understood two of the men had carried revolvers but if so they must have disposed of them for when searched at the police station there were no weapons on their persons.

### MOLLWITZ GOES TO CUBS

CHICAGO, July 22.—Frd. Mollwitz, Cincinnati first baseman, was purchased by the Chicago Nationals today. Terms of the transaction were not given out here. Mollwitz, a right-handed hitter, is to replace Sailer in the lineup when the Cubs oppose left-handed pitching, according to plans. He is to join the Cubs tomorrow.

SUMMERS, Box M, SOUTH BEND, IND.**

# SUN REAL ESTATE AND BUILDERS' PAGE

## BUILDING AND REALTY

### Contractors Complain of Scarcity of Help—Building Activities Include Three New Theatres

The builders of Lowell are in about the same predicament as the farmers, for they cannot hire help enough to keep up with the many jobs they have on hand. Excavators and laborers in general are hard to reach and those who are willing to handle the pick and shovel are getting fairly high wages for their labor.

Despite the scarcity of help, however, there are many buildings in process of construction. Among the large buildings being erected in Lowell are three new theatres, two in Middlesex street and one in Central street; a church in St. Louis parish; a large manufacturing plant in Middlesex street, and several large tenement houses.

One of the new theatres will be located at 66 Middlesex street and is being erected for Samuel Orbach, owner of the Owl theatre in Central street. The new building will be of brick and steel. Its dimensions will be 44 feet wide by 98 feet long and 57 feet or five stories in height. The theatre will be for moving pictures and its seating capacity will be about 1100, the auditorium to contain about 600 seats, while the balcony about 500.

The plans which called for a movable roof have been changed and instead a pitched immovable roof will be put on. The front of the building will be of white brick and will be decorated with numerous electric lights. The lobby leading to the theatre proper will be large and will have six exits, while there will also be two entrances to the balcony from Middlesex street.

The general contract for the work has been given to Arthur Dezel, who expects to complete the foundation sometime next week. The side walls, which are of brick, have reached a height of about 20 feet and work is being pushed along so fast that it is expected the new theatre will be ready for occupancy in the latter part of September. The cost of the building will be about \$30,000.

One of the busiest men in Lowell is Contractor Charles Witham, who has undertaken to improve the Belvidere section. Mr. Witham is now constructing 12 cottages in the vicinity of Fort Hill park and two in Putnam avenue. The plans for all the houses are alike and they call for eight rooms with all modern improvements.

The two large tenement blocks which are being erected in James street for Dr. Adelard Payette are nearing completion. One is a six-tenement block and the other contains three tenements. The plastering is nearly completed and it is expected the finishing touch will be started next week.

Grace A. Smiley is having a two-apartment house erected at 659 Stevens street. Each tenement will contain five rooms with pantry and bath and reception hall. The building will be 35 feet by 15 feet, two and a half stories high and will have bay windows on the front and side. The cost of the house will be about \$3350.

A \$5000 building will be erected on the site formerly occupied by the School street school, which was recently sold to Mrs. Laura A. Canlin. The old school building has been demolished and the lumber removed, and men are now busy excavating for the foundation of the new building, which will contain four large flats, each tenement to have six rooms, pantry and bath and reception hall. The building dimensions will be 57 feet, 8 inches by 24 feet, 3 inches. On each end of the building an ell 27 feet and 8 inches by 32 feet will be placed.

Patrick J. and Minnie A. Morris are having a home constructed at 1172 Gorham street. The house will contain eight rooms with pantry and bath and its dimensions will be 20 feet by 30 feet and two stories in height. In the rear of the new home a storage shed will be erected at a cost of \$400, while the cottage will cost about \$1600.

The one-family house at the corner of School and Varney streets and owned by Simon Ortnier is being converted into a two-tenement building. The basement to be finished for a store. A one-story addition, 12 feet square will be erected and interior improvements will be made.

ments will be made, the entire job to cost \$1200.

Frederick Lamoureux is having a home erected at 71 Varney avenue. The house will contain nine rooms with pantry and bath and fireplace in the living room. The cottage will be 35 feet by 15 feet, two stories high and will cost about \$3500.

Three thousand dollars is the estimated cost of the two-tenement house which is being erected for Morris Marner at 50 Washington street. According to present plans each tenement will have six rooms with pantry and bath, and piazzas and bay windows.

Avila Sawyer has started work on the erection of a two-family dwelling at 15-18 Fleming street. The building dimensions are 24 feet by 50 feet and the cost will be about \$3200.

Eusebio Chicofine is completing a three-tenement house in upper Merrimack street and has started work on a double house in Woodward avenue.

Other changes and improvements which being made in the city are as follows: Victor Provencier, extending garage to street at 33 West Third street at a cost of \$500; erection of a garage at 121 Hoyt avenue by Chas. P. Witham; addition to the dining-room at the home of Ferdinand d'Arcezo, 15 Walnut street; construction of a sitting room to the property of Michael J. Groulx, 49 Blidreth street; new addition to the ell on the property of Mabel Michael, 33 Marshall street; erection of a garage for Geo. E. McEwan at 53 Cunningham street; addition to the property of Mrs. F. W. Hudson, 52 Billerica street; new windows and corner entrance to the property of Thomas Hennessy, 359 Market street; changing of store to a tenement in the property of Mrs. E. Cleary, 456-58 Lawrence street; erection of garage for Rosita d'Amour at 22-24 Fisher street.

Belvidere Park. Things seem to be still booming at Belvidere park, one of the best locations in the city of Lowell for a residence. Improvements are rapidly being put into operation, and the outlook for a beautiful section is very promising. The prices are reasonable and the terms of payment easy, making an agreeable consideration. The courteous agents offer their willing assistance in the making of plans, etc. The Andover street car passes the park, which is in easy reach of all.

### REAL ESTATE DEALERS

Sales by T. H. Elliott. Thos. H. Elliott, real estate broker, offices 61 Central street, corner Prescott, reports the following sales negotiated during the past week ending Friday, July 21:

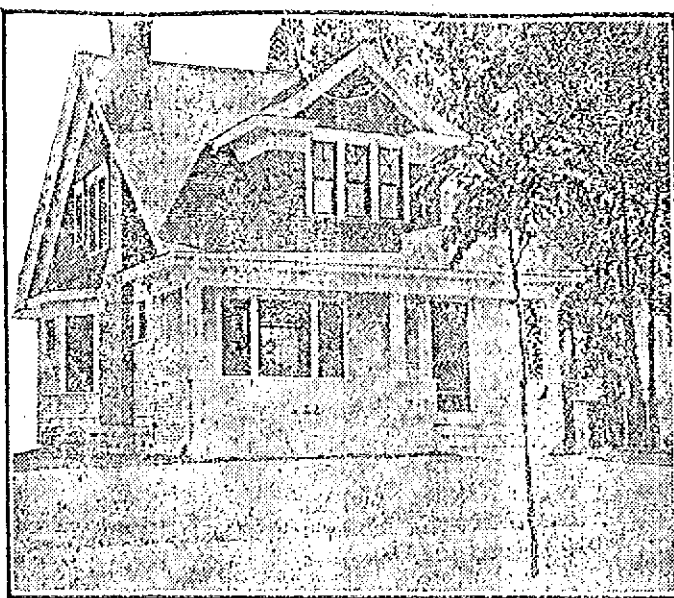

The sale of the residential property, situated at 210 School street at its junction with Varney street. The house is full two and one-half story with eight excellent rooms. It is heated by furnace and equipped with bath. Land to the amount of 3548 square feet was conveyed in the transaction, the assessment being at the rate of 28c. per foot, and totalling on land and buildings \$2300. The sale is effected on behalf of the estate of the late Miss Celestia P. Chase, the grantor being Mr. S. C. Gray, who has already started upon extensive alterations and will after the house into two apartments and install a store.

Final papers have been passed in the sale of an attractive suburban parcel situated on Maple street in Chelmsford. The land approximates one and one-quarter acres, the soil being of the highest grade. The house is small and of cottage type and of comparatively recent construction. The transfer is negotiated on behalf of Mr. Frank Hazle of Cambridge. The grantee is Mr. Harry C. Greene of this city. Mr. Greene purchases for investment purposes.

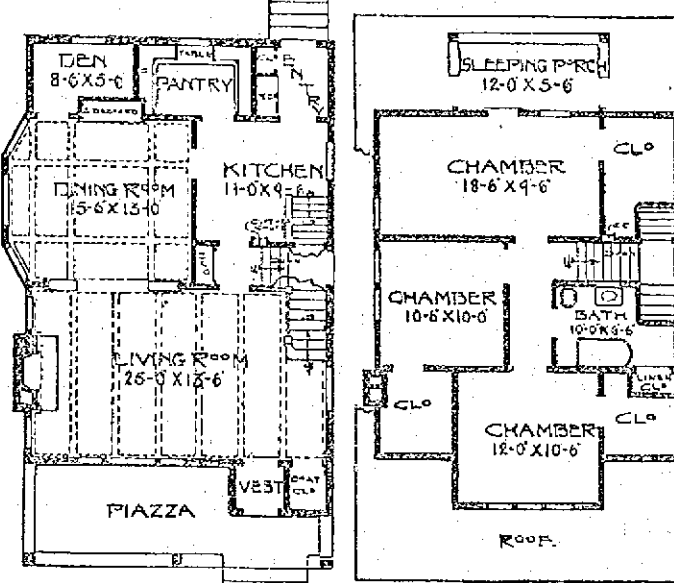

Also the sale of a first-class suburban property, situated in Dracut on Willow street. The land, amounting to one and one-quarter acres is almost completely taken up with a fine garden with a great variety of small fruit and also a splendid young orchard. The house is of cottage type with seven excellent rooms. There is a good stable and large poultry house on the premises. The sale is effected on behalf of Mr. Hugh Williams of Nashua, N. H., formerly of this city. The grantee being Mrs. Adelard Corbell. Mrs. Corbell buys simply for investment purposes.

Contracts have been closed on a

## WELL ARRANGED COTTAGE PLAN

PERSPECTIVE VIEW—FROM A PHOTOGRAPH

FIRST FLOOR PLAN.

SECOND FLOOR PLAN.

This design has a living room across the entire front, with a spacious dining room in the rear. The small den or sewing room in the rear opens into the dining room. Combination stairway with grade door underneath. Three chambers in the second story and abundance of closet space. Large bathroom, linen closet and a sleeping porch connecting with the rear chamber. A full basement. First story 3 feet, second story 8 feet. All of the chambers in the second story finished full height. Size, 26 by 25 feet over the main part. This cottage can be built for \$3200 exclusive of heating and plumbing.

handsome building site near Nesmith street in the Belvidere section. The general surroundings are among the most attractive in the city. The lot has an area approximating 16,000 sq. ft. with a street frontage in excess of 100 ft. and an outlook second to none in Lowell. The assessment is at the rate of 15c. per foot. This sale is negotiated on behalf of a local owner, the purchaser being a local business man who will erect a residence for his personal occupancy in the immediate future.

THE DESIGN AND SUPER-  
VISION OF ALL TYPES  
OF BUILDINGS

## THEY DO SAY

That we all have habits we find hard to correct.

That the pavers put something over on Charlie.

That Frank and Mabel like to walk by the moonlight.

That the real boy always turns out to be a true man.

That the "I told you so's" were out in force yesterday.

That the bouquets you don't get often look like lemons.

That you lose weight every time you get into a frenzy.

That those letters from Camp Cotton are very interesting.

That to suspend judgment is generally a pretty good move.

That drinking cold drinks on a very hot day is very poor dope.

That some school teachers were intended for something else.

That the new Pawtucket bridge will soon be getting a hump on.

That they are still saying things about that city automobile.

That \$50 is pretty golden cheap for a dwelling and two stores.

That Lowell will be well represented in the Boston light swim.

That Starter Sears of the Bay State is sporting a new "leghorn."

That Harry Jenkins spent most of the day in the palm gardens.

That the Lowell colony at Hampton beach is beginning to bloom.

That the size of the sharks depends upon who is telling the story.

That the South common is a very popular resort these hot nights.

That it isn't so much the experience as the after-effects that count.

That Edmond was bitten by the flies at Salisbury last Sunday.

That city department heads are not as a rule experts in their line.

That the board of health inspectors are very busy men these days.

That the police ball game, as usual, was a few hours late in starting.

That Joe has sold the filver and just for that we'll all have to walk.

That several new members joined the "ice cream club" this week.

That it certainly looks good for a world's series in Boston this fall.

That girls with big feet love to wear white shoes and we wonder why.

That the Oujia board told Nellie she will marry George within a year.

That a Gorham street jitney driver had a close shave Thursday night.

That this has been good beach weather, but we're not at the beach.

That Pres. Wilson's efforts to get food to Poland are approved by all.

That some people are so slipshod in their minds that they are incurable.

That sometimes we know a thing perfectly well when we can't prove it.

That it isn't hard to tell when a fellow is on the best of terms with himself.

That a real contest is expected in the 17th representative district this fall.

That a woman can do a lot of work if you let her do it in her own sweet way.

That the wisest man we know is liable to make at least one break a day.

That Merrimack square is a rather lonesome place on a Thursday afternoon.

That Arthur Drawett is looking for a new bat for his home run performance.

That the Oujia board said something terrible when asked what Billy was doing.

That every new mean man makes us forget the meanest ones we used to know.

That the Martin says you may marry to please your parents and repent at leisure.

That the girls at the Cartridge shop are not afraid of the sharks at Nantasket.

That it looks as if at least one of the Boston Light cups will come to Lowell.

That Frank is sorry he missed the last dinner of the board of trade directors.

That even a committee as humble as the waterways committee may do some good.

That some of those cheerful folks are such good company you can't help but love 'em.

That it is hard for some office holders at city hall to realize they are public servants.

That Newell got terribly fussed up over that little interview with the superintendent.

That some men seem to think it isn't possible to have a good time without getting drunk.

That John made a safe trip to Boston and return on his motorcycle Tuesday night.

That a couple of patrolmen find it more lucrative to work on other jobs now and then.

That the hot weather is one of the principal topics of conversation at the present time.

That the people who make the most effort to be happy are not the happiest individuals.

That the "nobody home" sign was hung out in the vicinity of the Cartridge shop today.

That the highest building in Lowell for some time to come.

That if all drivers were as careful as John Cotter there would be very few auto accidents.

That Major Colby T. Kittredge is looking for young men who would like to serve Uncle Sam.

That the city planning board hasn't been heard from since the waterways committee was appointed.

That the placing of Robinson at second base and Turpin on first seems to improve the Lowell infield.

That automobilists who do not observe the law will not receive much leniency from Judge Enright.

That a man cannot change his habits as easily as he changes his clothes, but some men think they can.

That the fire captain is sufficiently interested in the big girl with the brown suit to pay her carfare.

That all baseball fans join in wishing Christy Mathewson success as manager of the Cincinnati Reds.

That Rodrick Descheneaux holds the distinction of purchasing a real big house for the small sum of \$50.

That somebody is to be congratulated for their taste in selecting a color for the life saving apparatus.

That Chairman Gould of the county commissioners does not own the court house or any other public building.

That the Knights of Columbus are to be congratulated upon the move to send goods to the members of Company M.

That the residents of West Centralville were surprised to find that fire alarm box 822 had been installed. They have been waiting for it since last fall.

That the young man, carrying a baby which had just met with an accident, is very grateful to the autoist who stopped and took him to the doctor's office.

That the management of the local ball club is making a good move in giving local talent a chance, but a greater move would be to start the games earlier.

That it would be well for the police to see that the operators of automobiles observe the law relative to dimmed lights.

possible to have a good time without getting drunk.

That John made a safe trip to Boston and return on his motorcycle Tuesday night.

That a couple of patrolmen find it more lucrative to work on other jobs now and then.

That the hot weather is one of the principal topics of conversation at the present time.

That the people who make the most effort to be happy are not the happiest individuals.

That the "nobody home" sign was hung out in the vicinity of the Cartridge shop today.

That the highest building in Lowell for some time to come.

That if all drivers were as careful as John Cotter there would be very few auto accidents.

That Major Colby T. Kittredge is looking for young men who would like to serve Uncle Sam.

That the city planning board hasn't been heard from since the waterways committee was appointed.

That the placing of Robinson at second base and Turpin on first seems to improve the Lowell infield.

That automobilists who do not observe the law will not receive much leniency from Judge Enright.

That a man cannot change his habits as easily as he changes his clothes, but some men think they can.

That Merrimack square is a rather lonesome place on a Thursday afternoon.

That Arthur Drawett is looking for a new bat for his home run performance.

That the Oujia board said something terrible when asked what Billy was doing.

THE GREEK COMMUNITY

PRESIDENT NOUCAS REMOVED FOR ALLEGED VIOLATION OF BY-LAWS

A spirited meeting of the directors of the local Greek community was held last evening in the basement of the Greek Orthodox church in Jefferson street, with Mayor James H. O'Donnell in attendance. In the course of the meeting, charges were preferred against the president of the community, Thomas J. Nocas, who was later removed from office. Mr. Nocas will be given a hearing next Monday evening at 8:30 o'clock.

The charges preferred against Mr. Nocas were that he had not for some time past conducted the duties of his office as president, according to the by-laws of the community. Fearing there would be trouble at the meeting, the directors of the community requested Mayor O'Donnell to be present at the meeting as a justice of the peace, as is customary in Greece.

The twenty-one members of the board of directors were present at the

meeting and they were about equally divided for and against President Nocas. At the opening of the meeting the president's followers moved for adjournment at once, but on a roll-call it was voted 11 to 10 that the meeting should not be adjourned. The charges were then preferred against President Nocas, who was later removed from office. His successor being temporarily chosen in the person of George Zappos, one of the vice presidents. C. C. Anastasiadis was chosen temporary secretary, while Peter Tavaroularis and D. Sakellarios were chosen presidents. It is expected that next Monday's meeting will be one of the most interesting ever conducted in this city by the directors of the Greek community.

PROTEST WATER RATES

Portsmouth, N. H., Business Men Call on the Board of Public Works and Ask Reduction

PORTSMOUTH, N. H., July 22.—The recent rise in the water rates by the board of public works has caused a vigorous protest and yesterday President Frederick M. Siry of the board of trade, Edward Seybolt of the Portsmouth Gas company, Rudolph Liebruck of the Frank Jones Brewing company, William P. Harrington of the Portsmouth Brewing company and other business men appeared before John H. Sugden, clerk of the board, and made a formal protest claiming that the new rates were excessive.

The representatives of the board of trade will continue their efforts to secure a reduction of the rates, which, they claim, cost consumers 20 to 30 per cent. more.

2300 VOLTS SINGS HAIR

HAVERHILL LINEMAN HAS REMARKABLE ESCAPE FROM DEATH

HAVERHILL, July 22.—A slight singeing of his hair was the only mark that 2300 volts of electricity left on Fred Heath, yesterday when that amount of current passed through his body. Heath, a wireman in the employ of the Haverhill electric company, was working aloft when wires became crossed and the current passed through him. The wires dangled about a pole and several pedestrians in the vicinity were shocked.

With his hands covered with rubber gloves, Heath coolly grasped the wires and threw them from him. He then descended to the ground. Lieutenant George Walker of the Bradford Fire station ordered his men to establish a patrol about the vicinity until the current had been shut off. Heath later returned to work and completed repairs on the pole. Experts said that his escape from death was remarkable.

JAMES H. WALSH APPOINTED

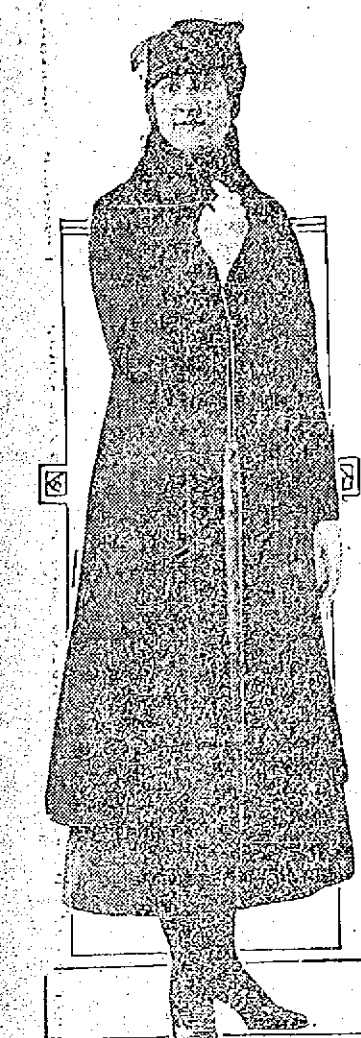

Brother of Ex-Governor Named as Postmaster at Leominster—President of Coal Company

LEOMINSTER, July 22.—James H. Walsh, who yesterday was appointed postmaster to succeed Frank I. Pierson, is a native of this city, 54 years old, married, and is the father of attorney James H. Walsh, Jr., of Fitchburg. He is a brother to Ex-Governor David L. Walsh and Major Thomas L. Walsh of Clinton.

Until May 1, 1912, he served 20 years as letter carrier at the local postoffice, resigning upon the latter date to become associated with the Hadley Coal company of which he is president. He was a candidate for appointment when Mr. Pierson was chosen and resumed his efforts after the later retired. Dr. Frank H. Morse was also a candidate then and now.

NATIONAL FOREST RECEIPTS

WASHINGTON, July 22.—Receipts from national forests for the fiscal year 1916 reached the high-water mark of approximately \$2,820,000, according to figures just compiled. This is \$341,000 above the 1915 total, which in turn exceeded any previous year. Officials said that the national forests are important factors in the prosperity of the regions in which they are located, on account of the large amounts of timber, range, and other resources which they hold available for use as needed. Business conditions are reflected in the receipts of the forests. Consequently the showing for the past year is regarded as an index of increased business activity throughout the sections where the national forests are found.

READY TO START.

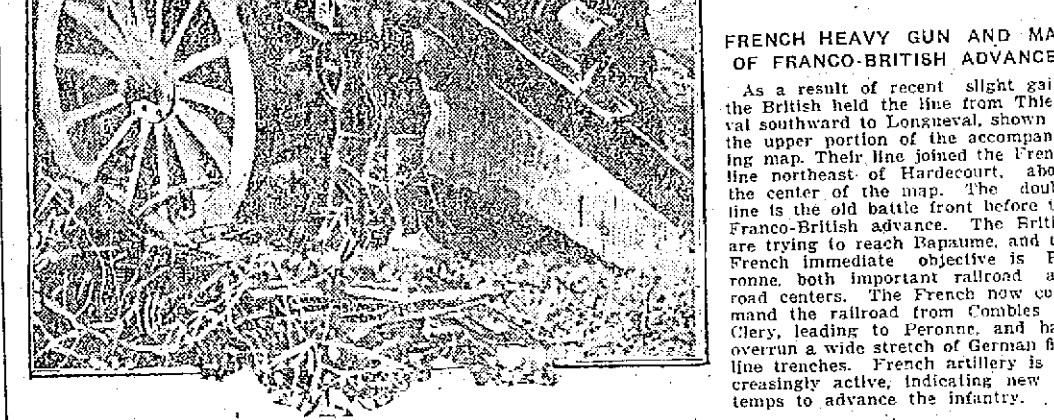

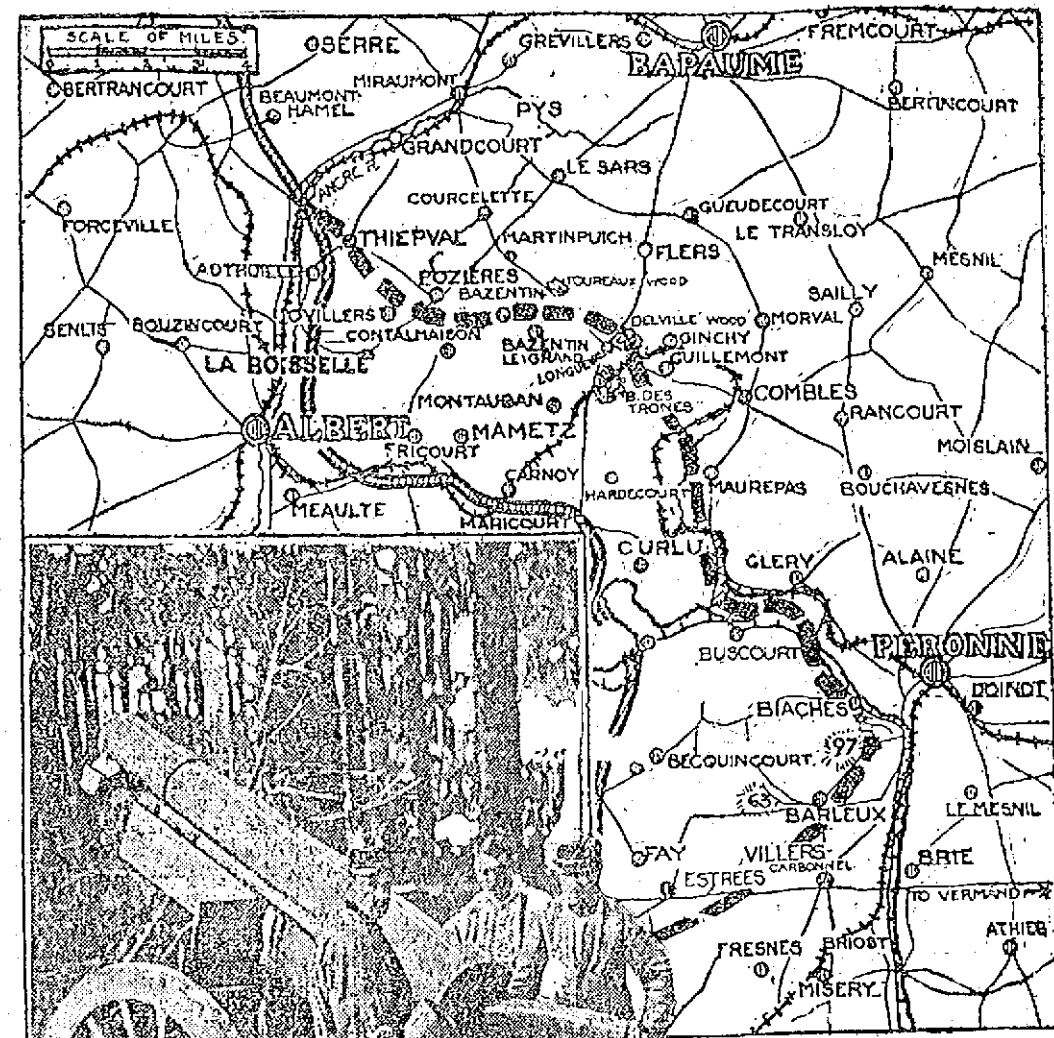

One of the (all) models of topsails is this put up in navy velvet, a light weight, cut with a voluminous collar, "cuffed" hem and fullness which is confined by triangular buttons. A long three-quarter length, this coat answers many needs.

VON WEDEL HEADS COMMITTEE FOR "HONORABLE GERMAN PEACE"

The German national committee for securing an honorable peace has drafted an address which will be published in a few days calling for support toward moderate peace aims. The signatures to the address indicate the importance of the movement, which will begin its work on Aug. 1. They include Count von Wedel, general adjutant to the emperor and head of the movement; Philip Heineken, director of the North German Lloyd; Paul von Schwaback, director of the Bleichroder bank; Professor Adolf Harnack and many important manufacturers, merchants, professors and others. The address outlines the aims of the committee, characterizing as "annexation lunatics" the pan-Germans. It emphasizes the fact that the last few weeks between the peace advocates and the annexationists has had a harmful effect and that it is necessary for the moderates to create uniform views concerning a basis of peace. The program of the committee includes the delivery of fifty addresses in as many cities of the German empire by prominent Germans. One of the executive officers of the committee has outlined its purposes, saying: "We desire to support the chancellor, but we disagree with the government's prohibition of discussion of the aims of the war. We want an honorable peace, but not a peace at any price. Neither do we want peace delayed by those who would have us take all our military power enables us to get." Von Wedel was formerly governor of Alsace-Lorraine.

FRENCH DRUM AND CURTAIN FIRE HERALDS FURTHER DRIVE BY ALLIES

FRENCH HEAVY GUN AND MAP OF FRANCO-BRITISH ADVANCE.

As a result of recent slight gains the British held the line from Thiéval southward to Longueval, shown in the upper portion of the accompanying map. Their line joined the French line northeast of Hardecourt, about the center of the map. The double line is the old battle front before the Franco-British advance. The British are trying to reach Bapaume, and the French immediate objective is Peronne, both important railroad and road centers. The French now command the railroad from Comblès to Clerly, leading to Peronne. They have overrun a wide stretch of German first line trenches. French artillery is increasingly active, indicating new attempts to advance the infantry.

of timber, range, and other resources which they hold available for use as needed. Business conditions are reflected in the receipts of the forests. Consequently the showing for the past year is regarded as an index of increased business activity throughout the sections where the national forests are found.

TO BE BRIGADIER GENERAL

WASHINGTON, July 21.—Col. John W. Ruckman of the coast artillery was nominated today to be brigadier general. Lieut. Col. Samuel Reber of the signal corps, was nominated for colonel.

RECOVERIES IN MARINES

FEATURE OF EARLY DEALINGS

SETBACK DUE TO PROFIT-TAKING

NEW YORK, July 21.—Recoveries in marines, the weak feature of the preceding session, marked today's early dealings, with strength in other specialties. Marine preferred stock rose 3 points with one for the common and as much for United Fruit. Industrial Alcohol advanced almost 2 with a substantial fraction for Distillers. Stantions, equipment and motors were represented by Crucible, Lackawanna and Republic Steel. Baldwin Locomotive, General Electric, Pressed Steel Car, Studebaker and Maxwell, all at improved prices. Continental Can and the Zinc shares also showed upward tendencies. Rails were again dull but steady.

Except for a moderate setback due to profit-taking the list made further upward progress. Equipments and munitions were especially prominent. Crucible making an extreme gain of 3, with 1 1/2 to 2 for the locomotives. Marine pfd. dominated the market in point of activity, having advanced 1 1/2 with a small fractional advance was almost the sole feature of the inactive rails. Coppers and other metals displayed greater activity and strength towards mid-day with Mexicans and U. S. Steel. Bonds were irregular. Trading became exceedingly listless and narrow in the early afternoon, the only activity being in the motor group, which then showed over night advances of 1 to 2 points. In other specialties prices slumped fractionally. Cans underwent further reduction in the final hour when leading zinc shares were active and slightly higher. The closing was irregular.

BOSTON MARKET

BOSTON, July 21.—Firm prices were maintained in local copper shares during the early trading today. Zinc shares were active and slightly higher.

# Anglo-French Attack on Somme Sector Abandoned, Says Berlin

## GERMANS HURL GAS AND TEAR PRODUCING SHELLS

British Front Line and Supporting Trenches Heavily Bombed—Ships Sunk

Apparently the Germans are preparing for further attacks in an effort to check the allied offensive in northern France.

### Intense Bombardment

London today reports an intensive bombardment of the British lines at places, gas shells and tear-producing projectiles being freely used. The British guns are replying vigorously. The afternoon bulletin from Paris ignores the Somme front, where the French presumably are busy consolidating their positions on the ground won from the Germans in Thursday's assault.

### German Attacks Repulsed

In the Verdun sector the Germans attacked a French position south of Dambloup, northeast of the fortress, but were repulsed. They are heavily bombarding the Fleury and Fumin wood sectors in this region.

German attacks on French trenches at Ville Meule in the Argonne and northeast of St. Die in the Vosges were repulsed.

### More Vessels Sunk

Berlin announces the sinking by German submarines on July 17 of six British trawlers off the English east coast. The British steamers Wolf of 2443 tons and Karna of 2354 tons and French steamer Cettois of 1290 tons have been sunk.

### GERMANS USE GAS SHELLS AND PROJECTILES CONTAINING EYE IRRITANTS

LONDON, July 22, 2:05 p. m.—A spirited artillery duel along the British front in northern France during which British front line and supporting French trenches were bombarded with gas shells and projectiles containing eye irritants is recorded in today's war office report.

Aside from these heavy bombardments at several points on the front in the past 12 hours there have been no important developments. The statement says:

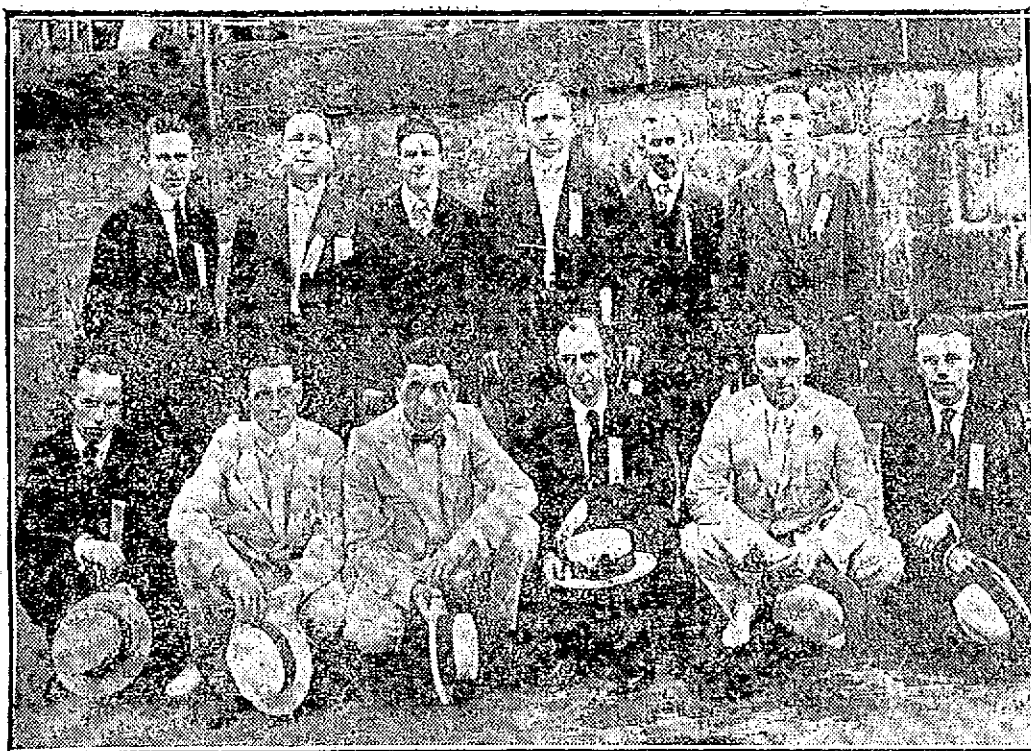

"The artillery on both sides has been more active during the past 12 hours and British front line and supporting trenches have in several places been heavily bombarded with gas and tear shells. Nothing else of importance occurred."

### STRONG GERMAN ATTACK NORTHWEST OR ST. DIE IN THE VOSGES REPULSED

PARIS, July 22, 12:30 p. m.—A strong German attack northwest of St. Die in the Vosges was repulsed last night by the French, the war office report of today says. "On the Verdun front"

## Four Trains Take Over 4000 Employees to Boston—Parade to Rows Wharf—Three Special Boats to the Beach at Nantasket—Fine Program of Sports at the Beach

It looked as though all the young men and women of Lowell were deserting the city this morning, when over 4000 employees of the U. S. Cartridge company made for the Middlesex street depot to take the special trains for Boston and from there by boat to Nantasket. Every car going in the direction of the depot was crowded with happy young men and smiling young women in gay dresses, all filled with the thought of throwing care to the winds and getting together in one grand jollification. For once the weather man was a jolly good fellow and from morning to night he blew on the sunshine and summer breezes and made everybody summer happy. The outing was another triumph for the U. S. Cartridge company and it served to advertise Lowell all over Boston and afterwards at the beach.

### At the Depot

The scene at the depot for an hour before the departure of the last train was very exciting, and a large crowd

away many pleasant hours at the piano which he played with some skill. He was a sub-letter carrier at the local postoffice and a devoted member of the Sacred Heart church. His death at the age of 30 years cuts off in the bloom of young manhood a splendid young man.

Deceased is survived by three brothers, Philip F. James P. and Michael J. and two sisters, Mary J. Mooney and Mrs. John E. Lowney.

### NOTICE

COLORED GLASSES

For Beach or Mountains  
50c to \$2.00

J. A. McEvoy, Optician

had gathered to see the excursionists off. The first train left at 8 a. m. and there was one grand rush for places. Owing to careful preparations, however, there was not the slightest confusion and the four trains were run off on schedule time. Members of the committee on arrangements sold the special tickets through to Nantasket and return, and handled the crowd so that all got seats without the slightest confusion. There was no need to arouse enthusiasm, and those in charge were urging the crowds to keep from cheering, etc., until the outing was under way. Needless to say the lid was off in Boston, and cheers for the officials and for the company rang out along the route of parade and at Rowe's wharf. The last train left on time at 3:30 and even then some stragglers had to hustle some before catching on. Prominent among those handling the crowd in Lowell was F. C. Pelletier, head of the traffic department who is about to take up his

old position with the Boston & Maine railroad.

There was a great deal of informal gaiety in the cars and the musical talent was made the most of in short order. Most of the fellows had their girls along, and there was a real family feeling among the employees. In one of the cars there was a fine concert by the sextet of the bullet department, consisting of Eddie Reed, George Palmer, Joe Bradley, Jack Shaunessey, Mike Flynn and Charlie Wright. There was not a single accident to mar the pleasure of the crowds, only that Bill Corcoran got excited and forgot the parade banner. Somebody else remembered, and it was proudly carried through the streets of Boston a little later.

### Boston Parade

It looked like "Preparedness" day in Boston when the trains got in. The crowds from the earlier trains gathered in the depot and on Causeway street and the alert Boston folks knew that

GAMES POSTPONED  
American at Philadelphia; Cleveland-Philadelphia two games postponed, rain.

BERLIN, July 22, via London, 7:50 p. m.—The German army headquarters staff in the official statement issued today claims that the great uniform Anglo-French attack on the Somme sector in France has been abandoned.

## CIVIL SERVICE MAN ENTERS THE ARENA

Patrick Reynolds Takes a Hand in City Hall Deal—Says Alleged Shortage of Laborers is Bunco

Patrick Reynolds, the civil service man at city hall claims there is no such thing as a scarcity of help in the street department, and to a Sun reporter this morning he stated he has a list of over 500 names of men who are now awaiting an opportunity to go to work for the city. Mr. Reynolds said Mr. Morse never went to him for one man since the civil service was adopted in this city and furthermore he states that about 350 men have been dropped from the street department payroll from Nov. 17, 1915 to May 26, 1916, and he avers that unless the men have been discharged for cause, they can be placed at work again. When the civil service was adopted in this city, Commissioner Reynolds said, he never went to him for one man since the

## TROOPS TO CROSS CANADA

Report Government Arranging to Transport 80,000 Russians Across Dominion

LEWISTON, Me., July 22.—A report that 80,000 Russian troops would be transported from Siberia to Canada and shipped from Halifax to France, was brought here today by Michael O'Leary of Halifax, who is connected with the freight service of the Intercolonial railway.

According to O'Leary, who is visiting relatives here the allies consider the proposed route both practical and reasonably safe and already have consummated their plans.

O'Leary also says that just before the Olympic sailed from Halifax, about a month ago with 10,000 Canadian soldiers, bombs were discovered

on board here; that the perpetrators were discovered and executed by the military authorities.

## BIG STRIKE ENDS

NEW YORK, July 22.—Settlement of the strike and lockout which for several months has tied up the garment working industry in this city was announced today at a meeting between representatives of the Cloak, Suit and Skirt Manufacturers' association and the union.

## MANY OUTINGS

Factories and Churches Have Outings at Beach and Grove

Outings at the beaches were held by many of Lowell's manufacturing establishments today, many special cars leaving Merrimack square filled with merry-makers off for a day's enjoyment. The threatening weather and the clouds that hid Old Sol from view during most of the forenoon was out for a jolly good time.

The employees of the Shaw Stocking

Co. enjoyed a whole holiday. Leaving Merrimack square on the special cars, the 100 or more young people journeyed by trolley to the Bay Line wharf, Boston. Then they boarded a waiting boat and went to Bass Point. At noon dinner was enjoyed in a popular hotel, after which the girls at the beach were taken in. Early this afternoon the stocking makers went by boat from Bass Point to Revere. The roller coasters and other amusements along the boulevard were liberally patronized by the Lowellites all afternoon. The special cars will leave Revere for Lowell this evening.

### Spaulding Shoe Shop

The Spaulding shoe shop held its annual outing at Revere beach today.

## WILLIAM J. MOONEY DEAD

### POPULAR YOUNG LETTER CARRIER WAS VICTIM OF ACUTE INDIGESTION

William Mooney, aged 30 years, and residing in Central street, was stricken with acute indigestion about 11:30 o'clock last night near the corner of Beacon and Third streets. He was removed in the ambulance to St. John's hospital, where he died at noon today.

Mr. Mooney was a young man of clean character, upright and honest in all his dealings and a loyal friend, and his sudden death will cast a gloom over a wide circle of friends who but yesterday looked upon the deceased as in apparently perfect health. Among his close associates he was a charming companion and could while

## ELECTRIC COOKING RATES REDUCED

Another pleasing message to our patrons and the public is the announcement of a new very low rate for electric cooking.

This ideal method of cooking will recommend itself for country homes where wood or coal is the only fuel, and where the convenience, cleanliness, and charm of the electric range especially appeal.

## OUR WASHINGTON LETTER

John Jones Used by Movie Man to Illustrate Everyday Workings of Congressman

Special to The Sun.

WASHINGTON, D. C., July 22.

Do you know what is the very latest idea for campaign publicity? Well, it's to let the folks at home know what their congressman is doing by making him the hero of a motion picture scenario.

Already more than one member of congress has tried it with seemingly good success and it is whispered that several New England members have been induced to pose for the movie man for the same purpose, but who the men are is a secret not to be given away. The plan is very simple and ought to furnish an interesting picture as well as excellent campaign material. If carried out it will open the eyes of the stay-at-homes to the fact that the average congressman is no idler, but earns every cent of his salary by serving as general errand boy and friend at court for hither of constituents, in addition to the matter of great moment he is called upon to consider.

For convenience we will call the New England congressman John Jones, because there is no John Jones from New England in congress.

A rough outline of the plan is something like this: A movie man approaches Congressman John Jones with the suggestion that he permit himself to be used to illustrate the everyday workings of a member of congress. It must be the real thing and will be not only a means of instruction and entertainment, but good campaign material as well. The congressman agrees to the suggestion, says he will pose and that the pictures may be used as a part of the regular motion picture exhibit. Then a suitable scenario is written with the congressman as the hero and a movie man follows him on his day's routine.

When the work is completed, Congressman Jones is shown on the screen as taking leave of his friends and going down in his little New England home town. He arrives at the Union station in Washington, goes to the capitol and is greeted by his office staff and colleagues on a business trip and has been home for a while. Later he is seen seated at his desk in the house office building, surrounded by his secretary, stenographer and clerks, who are answering seed envelopes, answering inquiries and doing a busy mail work. John Jones, the busy man, has you written him for garden seeds. Then it is your letter he is reading and it is to you he is dictating an answer, while the clerk adds your name to the already long list of seed-wanted men. Did your third cousin ask him about the thick of the Euro-Asian war? Well, he reads your letter, calls up the secretary of state, asks your question, gets a reply as to whether or not the deparment will take the matter up, and then writes an answer, right.

Some of you have written him to send you a bulletin from the agricultural department, so he telephones them to send to the list he gives, all sorts of information ranging from bringing up the baby to shearing sheep, to building a pickles and preserving how to build a sanitary dairy or the last time he was you told him that poor Jim Jenkins, who fought so valiantly in the civil war, simply cannot get along with "on the town" unless he is helped by congress. Then you with the pension bill, get Jim's war record, and frame a bill and work like a beaver to get the pension increased.

Pretty soon your congressman steps to the corner of the street and hounds a car to do your errands at the department down town, a couple of miles from the capitol. Let me see, you protest against the change of R.F.D. route in your neighborhood, and write him that the chickens get to be old hens, the eggs have to be hatched, the butter spoiled on the way to market by parcel post, so "outrageously unsatisfactory" to the needs of the town. Is the new route selected? Why is it? Is the old route restored? Or was it the postmaster general and try to get the old route restored. Or was it the old route restored.

After a while you see the congressman mop his forehead and draw a long breath—for the temperature is over 90 degrees here most of the summer and doing errands for a whole congressional district is no small stunt. Congressman John looks at his watch and hurries back to the capitol. Once there he attends the committee meetings of claims, pensions, or whatever he may be a member of, sits long hours in the house chamber listening, or taking part in debates. You can see him seated with a dozen others at a long table while the committee is in session, offering suggestions as to the best way to bring about what his dis-

trict needs when the bill under discussion comes before congress. The house lacks a quorum. The buzzer on the wall makes you watch the speaker and you will see the little hands tap the bell. Congressman John carries across the park to the capitol, answers to his name when the roll is called and maybe stays there in the sizzling heat until the vote is taken several hours later. For the bill is one in which you and your home town are interested and Congressman John must be on the spot to vote in your place.

Now this is no picture gotten up for the occasion—it is merely a part of a real day's work.

When you go home after the show is over you will be quite likely to say to yourself, "I wouldn't have believed it myself. I hadn't seen it with my own eyes. Why I always thought being a congressman was an easy job. I guess Congressman John earns his salt after all!"

And when you cast your ballot at the next election, ten to one you remember that motion picture and cast it for Congressman John Jones.

RICHARDS.

## THE CARMEN ON STRIKE

ALL CAR LINES AT YONKERS TIED UP—MOTORMEN AND CONDUCTORS WANT MORE PAY

YONKERS, N. Y., July 22.—All of the local street car lines were tied up here today by a strike of motormen and conductors who are demanding an increase of five cents per hour in wages and shorter hours.

## THE PROHIBITION TICKET

HANLY FOR PRESIDENT AND LANDRITH FOR VICE PRESIDENT

ST. PAUL, July 22.—J. Frank Hanly, former governor of Indiana, was nominated for president of the United States by the prohibition national convention yesterday, and Dr. Ira D. Landrith of Nashville, Tenn., was selected as candidate of the party for vice-president. Hanly's nomination was on the first ballot. Dr. Landrith's nomination was made unanimously after the other vice-presidential candidate had withdrawn.

The defeat of William Sulzer, former governor of New York, for the nomination for president was decisive. He received only 180 votes to 440 cast for Hanly. Henry Ford received but a single vote.

Finley C. Hendrickson of Cumberland, Md., received 51 votes; James G. Thompson of Pennsylvania, 10; W. P. Ferguson of Pennsylvania, 4; and Sumner W. Hayes, Indiana, 2.

Mr. Hanly's nomination followed a number of hurried conferences between advocates of the candidacy of William Sulzer, former governor of New York, and several brief demonstrations in the latter's behalf, which, however, were offset by the outbreak of enthusiasm that followed every mention of Mr. Hanly's name.

AMERICANS IN CHINA  
PEKING, July 22.—An American firm has closed a contract with the Chinese government to construct eighty miles of boulevard connecting Peking with the Western hills and the Marco Polo bridge, one of the most famous bridges on the Peking river. The new boulevard system will give Peking a circular boulevard system and afford transportation to a large suburban residence section in the foothills west of the Chinese capital.

The contract also includes the right to operate motor buses on the new boulevard, which will touch the summer palace, Tsing Hua college, which was established with the Boxer indemnity money refunded by the American government and many other places of interest to visitors.

POP CONCERT AT CANOBIE  
Plans have been perfected and everything is in readiness for the grand Pop Concert and Dance in aid of the Immaculate Conception church at Canobie Lake park, which will be held next Monday evening, July 24th, at the dance hall.

Elaborate decorations will be used in the hall, and tables will be placed about the veranda, at which refreshments will be served.

A special musical program has been arranged, and among the artists who will appear are: Miss Purcell, toe dancer, from the Boston Opera company; Master Percy Cummings and Miss Lois Higgins, society dancers, and other cabaret entertainers.

The regular singing society of Canobie Lake will play for dancing. Ex-Mayor John F. Fitzgerald, of Boston, will be present, and has promised the committee that he will sing "Sweet Adeline."

Mayor Hurley and the city government of Lawrence will also be among the guests. About two score Boston men who are camping at the lake are serving on the volunteer committee and have been very successful in disposing of a large number of tickets.

Extra cars will be run from the lake to the surrounding towns.

## WANTED HIM MURDERED

WILLIAMS STATED THAT MRS. FELCH OFFERED TO PAY HIM TO KILL HER HUSBAND

CHELSEA, Vt., July 22.—Testimony that Ols Williams, on trial with Mrs. Anna Felch for the murder of her husband, Joseph Felch, has stated that the woman had tried twice to get him to put her husband out of the way, was given by Deputy Sheriff Welch yesterday.

Williams, the officer testified, told him of the relations he had with the woman, and said that once she offered him \$100 to do away with Felch, who employed him as a farm hand. Williams said that he refused, but that afterward Mrs. Felch again tried to have him get rid of Felch. This time, according to Williams' testimony, Williams said the money was money and he would do it. Felch further agreed to share with him any property left by her husband. This offer also Williams said he refused, the witness went on.

Welch further testified that Williams had told him that he brought the rifle with him with which Felch was killed to Felch's house, as the latter wanted it to shoot woodchuck. Mrs. Felch had used the gun sometimes at target practice, according to Williams' alleged statement.

On the night that Felch was shot down, the testimony continued, Williams was at home, according to his story, and did not know of the killing until the next morning.

Welch's testimony was the chief feature of the proceedings yesterday. He concluded just before adjournment.

SOMEWHERE IN CHELSEAFORD  
"Preparedness" is the watchword in Chelmsford these days, and according to an army of men are digging 2250 feet of trenches, 1300 feet of which have already been opened. The residents of Chelmsford are going to fight, not men, but fires, and that is why the roads are being torn up.

The excavating is being done under the direction of Superintendent Walter McMillan of the water department and an eight-inch main will soon be laid in the trench for fire protection and domestic use.

At the last town meeting it was voted to extend the water system through the town and fifteen men of the water department are now fulfilling the desire of the community. The water main arrived in the early part of the week and already 500 feet of it has been laid. It is expected that within a few weeks the pipe will have been laid, the trench filled and the water turned on.

## SAUSAGE FACTORY BURNED

COPENHAGEN, July 22.—According to the Kieler Zeitung, Helms' sausage and meat-curing factory in Halberstadt, one of the largest concerns of the kind in Germany, and recently engaged in carrying out army contracts, was burned down late in June.

## JAPS SENT TO BRAZIL

TOKIO, July 22.—About 150 Japanese families will be sent to Brazil in August by Japanese emigration companies. If the enterprise proves successful large contingents of emigrants will be forwarded to South America later in the year.

## AMUSEMENT NOTES

B. F. KELTH'S THEATRE  
Circumstantial evidence is very damning at times, and it can be used to blacken an entirely innocent person.

This is the underlying theme of "Hoodoo Ann," a five-part photo-play with the March as the star, which will be the big feature of the bill at the B. F. Kelth theatre, this afternoon and tonight. Every minute the picture is a masterpiece of the art of the good comedy. "He did and He Didn't" with Roscoe Arbuckle and Mabel Normand playing very good parts, and "The International Shows many new 'clowns' of particular interest being those referring to infantile paralysis in Brooklyn.

## MERRIMACK SQUARE THEATRE

The wonderful and powerful actor, Dustin Farnum, will appear for the final times at the continuous performances today. Many of those who witnessed this new play, "Davy Crockett," assumed that the wonderfully idealistic forest scenes were painted scenery, the abundant snowfall, the picture-like distant mountains, etc., all gave a

Egg Nog

Try a Cup

When About All Gone

1 cup hot milk, 1 egg (beaten), 2 teaspoons sugar, 1 teaspoon Sanforde Ginger, dash nutmeg. Drink while it's hot. Stimulating, nourishing, strengthening. Nothing better.

A delicious combination of ginger, aromatics and French brandy for the relief of cramps, pains, colic, colds, weakness, nervousness and indigestion. Look for the Sanforde Ginger logo on the wrapper. Sold by all druggists and grocers.

GIRL DROWNED IN RIVER  
CRAWFORD, N. H., July 22.—Evelyn White, 12-year-old daughter of John White, a plumber in the employ of the L. F. Moore company at Lancaster was drowned yesterday afternoon while bathing with several schoolmates in the river, above the dam, where several other drowning accidents have occurred during the past few years.

JOIL FOR INSULTING GIRL  
Manchester, N. H., Man Pleads Guilty—Judge Says He Proposes to End Practice

MANCHESTER, N. H., July 22.—Demetrius Constantine, charged in the municipal court yesterday with having addressed insulting remarks to young women on a street corner, was sent to jail for 30 days. Counsel for the prisoner who pleaded guilty, made a strong plea in his behalf, saying he did not realize the seriousness of the offense, and asked that the case be placed on probation, but the court thought a lesson was needed to put an end to repeated instances of girls being insulted on the streets.

sense of unreality, of being too perfect for nature. But this assumption was dispelled when "Davy" in deer-skins hearing distant calls for help bounds from the log-cabin and disappears into the supposedly painted scenery. This story of the frontier days when "Davy Crockett" was a young man, has been taken in snow, mountain, forest and colonial scenes, and is a masterpiece of scenic artistry. Another big picture on this program is "What Happened at 22" featuring Frances Nelson and Arthur Ashley. This is a mystery that it has baffled everyone who has attempted to solve it. A wonderful plot has been woven around the story and is filmed in five parts. Today is the last opportunity for the patrons to attempt to solve it. They will also see many other interesting plays, comedy, and the travel picture.

The leading feature at the continuous Sunday concert at this theatre will be the pretty Lillian Walker in "Green Stockings," one of her highest scored successes. This is a Vitaphone Blue Ribbon feature in a picture and a splendid comedy of English life. Many other fine plays will be screened at this Merimack Square theatre continuous Sunday afternoon and evening concert.

## OWL THEATRE

Alice Brady, the star of many famous screen productions, will again be seen at the Owl theatre after a long absence. Her latest picture, "The Woman in 41," in addition to this wonderful story of New York life, other excellent attractions will also be presented at the Owl theatre today.

## ROYAL THEATRE

A new Pacha serial, one of the very best ever offered by these famous producers, will be shown in Lowell at the Royal theatre, first episode to begin next Wednesday and Thursday. "The Grip of Evil" discloses a new phase and will feature Roland Bottomly and Jackie Saunders two of the best known film favorites in the picture world. Remember the dates, and at the Royal theatre.

## LAKEVIEW PARK

There will be two band concerts at Lakeview park Sunday, July 23, furnished by the Sixth Regt. band, from 3 until 5 and 7.30 till 9.30 p. m., when the following programs will be rendered.

AFTERNOON

## CANOBIE LAKE PARK

Tomorrow at Canobie the theatre will again offer a superb bill of the finest pictures possible, there being nothing on the bill but pictures that will give you a new and different view of the world. The bill there being plenty of both to satisfy the most ardent picture fan.

A concert for tomorrow will be given by the Haverhill Military band and a selected program is assured by this premier musical organization.

Religious services will be in the theatre from two to three with the same soloists assisting as last Sunday. Mr. Eva Brooks Flinn, soprano; Miss Anne Kaubach, contralto, with Miss Helen Brooks at the piano. All of the artists are from Haverhill and last Sunday made an excellent impression with their excellent program. All the soloists and pianist will render selections during the band concert also.

Mr. Alfred T. Handley and Miss Nellie P. Kelley, oldest daughter of Mr. and Mrs. Patrick Kelley, were united in marriage this afternoon at half past two at the rectory of St. Patrick's church by the Rev. J. E. Gleason. Mr. Frank Donovan was best man, while the bride was attended by her sisters, Miss Mary Kelley, acting as bridesmaid and Miss Della Kelley, flower girl. There was a reception at the bride's home. The happy couple were the recipients of many beautiful presents. They left in the evening for a trip to New York.

The happy union was blessed by eight children, seven of whom are living. The seven children joined in the observance today, and tomorrow afternoon between 2 and 3 o'clock the wedding will be a family reunion in which intimate

## POWDER MILL EXPLOSION

SEVEN EMPLOYEES OF HERCULES POWDER CO. AT KENVIL, N. J., INJURED

KENVIL, N. J., July 22.—Seven employees of the Hercules Powder Co. were injured early today in an explosion at the plant's "dry" house. The company denies reports that a number of workmen were killed. It was said that all the injured probably would recover.

## MARRIED 25 YEARS

MR. AND MRS. ALFRED T. HANDLEY OBSERVE QUARTER CENTURY ANNIVERSARY OF WEDDING

Mr. and Mrs. Alfred T. Handley are today observing the 25th anniversary of their marriage at their home, 990 Middlesex street, and their many friends sincerely hope that the happy couple will live to celebrate their golden wedding.

Mr. and Mrs. Handley were married July 23, 1891, and the following account of the wedding is from The Sun of that date:

"Mr. Alfred T. Handley and Miss Nellie P. Kelley, oldest daughter of Mr. and Mrs. Patrick Kelley, were united in marriage this afternoon at half past two at the rectory of St. Patrick's church by the Rev. J. E. Gleason. Mr. Frank Donovan was best man, while the bride was attended by her sisters, Miss Mary Kelley, acting as bridesmaid and Miss Della Kelley, flower girl. There was a reception at the bride's home. ## COMPROMISE REFUSED

Middlesex and Boston Carmen Will Not Submit Wages Dispute to the Board of Arbitration

WALTHAM, July 22.—Carmen's union, Local 600, which takes in all employees of the Middlesex and Boston street railways, last evening refused the compromise offer of the company of an increase of 1 cent per hour each year.

The men demanded minimum wage of 30 cents an hour and a maximum wage of 35 cents an hour, to be reached in three years. They have been

working for a minimum of 24 cents an hour and a maximum of 30 cents an hour, but the maximum could not be reached for five years.

There is an agreement between the company and the union that any disagreement shall be referred to a board of arbitration. James H. Vaher, counsel for the union, will represent the men at the arbitration hearings.

The meeting tonight was addressed by John H. Reardon of Worcester, a member of the national executive board,

friends of the family will also participate.

## HIBERNIANS' CONVENTION

BOSTON, July 22.—Yesterday afternoon's developments brought out the fact that there is a contest for national officers of the Ancient Order of Hibernians, and two sets of officers were nominated at a session which lasted five hours. This was not expected.

The candidates for office for the ensuing term of two years are as follows: For president, Joseph McLaughlin of Philadelphia, present holder of the office, and Prof. Michael J. Rohan of Marquette university, Milwaukee, Wis. Prof. Rohan is also chairman of Irish history of the order.

### Judge a Candidate

For vice president, Patrick F. Cannon of Clinton, Mass., present holder, and Judge James J. Deery of Indianapolis, Ind. Mr. Cannon was elected to the office of vice president at Norfolk, Va., two years ago.

For secretary, Frederick J. McLaughlin of Jamaica Plain and Thomas J. Matthews of Providence, R. I. Mr. McLaughlin is the Suffolk county president of the A.O.H. and is very popular all over the state, as well as having a host of Hibernian friends all over the country.

For treasurer, Michael W. Delaney of Chicago, present national treasurer, and Patrick F. Carr of Washington, D. C.

The candidates for national directors are:

Edward R. Hayes of New Brunswick, N. J., and James Clancy of Ishpeming, Mich.; John E. Healey of Wilmington, Del.; Myles McPartland of Brooklyn, N. Y.; Philip J. Sullivan of Thompsonville, Conn.; Thomas J. Robinson of Maine; Rev. John Moran of Youngstown, O., and John J. O'Connor of Holyoke, Mass.

Peter J. Doyle of Montreal was nominated for Canadian vice president.

The delegates to the convention of the Ladies' auxiliary, A.O.H., spent the entire day listening to the reading of the report of Mrs. Mary F. McWhorter of Chicago, chairman of Irish history.

The delegates remained in session from 9 in the morning until about 7.30 at night, with only a half-hour for lunch. This was done for the purpose of making nominations for a full set of officers for the ensuing term of two

years, but it was decided not to hold a night session.

It is said that there is a hot contest for national officers of the Ladies' auxiliary. All the present officers retire under the constitution, having served two terms.

Among the candidates for national officers in the Ladies' auxiliary are: For president, Mrs. Mary F. McWhorter, the present chairman of Irish history, and Miss E. A. Mahoney of Laurium, Mich., the present vice president. Mrs. McWhorter was a candidate for president against Mrs. Ellen Ryan Jolly, the present incumbent, two years ago at Norfolk, Va.

For vice president, Mrs. Adele Christy of Cleveland, O., the present secretary, and Catherine E. Foley of New Haven, Conn., state president of the Ladies' auxiliary of Connecticut.

Mrs. Sarah McNamee of Bedford is the only New England woman candidate for the office of national secretary.

There is a contest on for members of the national board of directors of this organization, and it is said that there will be a fight to the finish between the various candidates for the various offices.

Resolutions were adopted pledging loyalty to the United States, the last paragraph of the resolution reading: "We shall never shrink from the duty we owe to the republic, whether that duty calls our labors to the forge of peace or to the fields of conflict."

The delegates pledged their allegiance to the Catholic church, and promised to aid in the extension of that faith. Indorsement was also given to the Federation of Catholic societies as the first of all influential Catholic organizations.

A memorial church to the Rev. Abram Ryan, the poet-priest of Mobile, Ala., the establishment of a home for aged Hibernians, and gifts to the Catholic Church Extension society, were also included in the resolutions. The resolution on "Hyphenated Americans" declared that the political circulation of the catch phrase is aimed mischievously at Irish-Americans.

### ONE THOUSAND YEARS OLD

SANTA FE, N. M., July 22.—The discovery of a hitherto unknown community house estimated to be a thousand years old, at Otowi, the prehistoric settlement 30 miles west of Santa Fe, was announced yesterday by Mrs. L. L. Wilson of Philadelphia, in charge of an archaeological expedition of the Philadelphia Museum.

### WEATHER FORECAST

WASHINGTON, July 22.—The forecast for the North Atlantic states for the week beginning Sunday, issued by the weather bureau today, predicts moderately warm and generally fair weather with local thunder showers probable Monday or Tuesday.

### OPTICAL ASSOCIATION

PROVIDENCE, R. I., July 22.—Harry J. Covello of Bangor, Me., was elected chancellor of the scientific section of the American Optical association to succeed himself at the annual meeting held here today. Other officers elected were as follows: Vice-chancellor, R. W. Guilmin of Meriden, Conn.; registrar, Emil Arnold of Ann Arbor, Mich.; librarian, S. H. Robinson, Kansas City, Mo. The convention will close today.

## PRICE OF PAPER POPULAR CRUISE

Federal Trade Commission Invites Publishers to Attend Hearing

WASHINGTON, July 22.—Newspaper publishers throughout the country were invited today by the federal trade commission to be represented here Aug. 1 at 10 a. m., at a hearing on whether there has been undue increase in the price of news print paper. The commission will conduct an exhaustive investigation of which the public hearing will be the first step.

The investigation was ordered by a resolution of the senate. The commission has sent word to 2000 daily newspapers and 4000 weekly papers asking those who cannot appear to submit any information they may have in writing. The commission wants specific information of prices, quantities and any other facts bearing on the increase.

The commission is using all employees it has available to expedite the investigation and expects to report to the senate by Oct. 1.

The commission asks that any newspapers not receiving a copy of the schedules it is sending out, apply for them or forward any information to the secretary.

### STRIKE AT RENDERING WORKS

Between 35 and 40 employees of the South Lowell Rendering works went on strike last night after they had been refused a ten per cent. increase in wages. It was expected that there might be trouble this morning when other employees reported to work, but Officer Henry D. Livingston and three other members of the Billerica police were on hand and everything was orderly.

In conversation with a representative of The Sun, Supt. J. L. Henderson said that the company would not agree to the demands of the strikers and that the works were running today and that new men would be employed next week.

### BRITISH STEAMER ASHORE

MURORAN, Japan, July 22.—The British steamer Penarth Castle, from Baltimore, May 31, via Newport News and Comex, for Vladivostok, is ashore near here.

Sec'y Daniels Describes Object of Naval Cruise for Civilians

WASHINGTON, D. C., July.—Enrollment of civilians for the forthcoming cruise on United States warships is proceeding with indications that the experiment is popular, and there is no doubt that the full quota of two thousand citizen sailors, ranging all the way from 19 to 45 years of age, will be ready to carry their baggage bags aboard the practice fleet on Aug. 15. The men will board the ships at the ports nearest their home, and in the month's duration of the cruise will be given experience in almost every form of naval life from swabbing decks to firing big guns. The enrollment thus far shows men of all trades and professions, many prominent and wealthy, who are enthusiastic over this new plan of naval preparation. Assistant Secretary Roosevelt of the navy department expects to spend at least some of the month as one of the citizen bluejackets.

Rear Admiral J. M. Helm, who is at present in charge of the naval militia cruise, will be commander-in-chief of the civilian cruise also, and will use the same warships, the vessels, and the ports from which they will sail, are: the Virginia, from Portland, Me.; the Kearsarge, from Boston, Mass.; the Illinois, from Newport, R. I.; the Kentucky and Maine, from New York city; the Rhode Island and Alabama, from Philadelphia; the Louisiana, from Norfolk, Va.; and the New Jersey, from Charleston, S. C.

The cruise will end Sept. 12 and during its last week will be held a mobilization and training cruise of yachts and motorboats. From Aug. 15 until Aug. 20 the citizen sailors will be proceeding to the training rendezvous at Tangier sound, in Chesapeake bay, the gunnery practice ground of the Atlantic fleet. Target practice will be held by the training fleet from Aug. 21 to Sept. 5.

The object of the cruise is officially described by Secretary Daniels as follows:

"For training volunteers to afford to civilians an opportunity to gain, by close contact with naval life and naval duties, some experience and understanding which will help them to perceive the way they may best fit themselves for service in the navy in time of need."

At the end of the cruise each volunteer will be given a certificate by Rear Admiral Helm specifying the duties he performed, efficiency displayed and the naval rating he is best qualified to fill. Volunteers also will announce the intention whether they will volunteer for naval service in case of war within the next four years.

Each volunteer is depositing but \$30 for the privilege of the month's cruise, the navy supplying uniforms and other naval clothing. The volunteers will be given substantially the same training as midshipmen from the naval academy during their training periods. They will sleep in hammocks, canvas bunks will be their substitutes for the children's at home; they will help clean ship, polish brass work, assist in

the engine room and generally go through the rigorous duties of any jack tar.

Mixed with the work, however, will be much recreation and instruction. When conditions permit, the men will be allowed to go swimming twice daily, and hold rowing and sailing races, and inter-ship baseball games. Lectures and private instruction will be given daily by navy officers. In addition to the practical experience afforded.

The volunteers are to be organized, massed and berthed separate from the regulars aboard ship and will not be required to pass coal, work in the mess room, stoke boiler or do extremely laborious work which might too severely strain men of sedentary life, although all will be required to pass physical examination before embarking.

From daybreak until 9 p. m. a regular program of duties awaits the civilians, with almost every minute filled. Before breakfast two and a half hours' work will be the daily program of the citizen sailors. During the cruise they will be drilled and instructed in the 3 and 5-inch guns of the ships, in signaling, boating of all kinds, fire control, torpedo defense, quartermaster's duties, marine and electrical machinery, including radio work. Emergency drills, such as fire quarters, collision, "man overboard," and general quarters are also scheduled. The volunteers assigned to engineering duty will work in two-hour shifts from 3 a. m. to 3 p. m. All volunteers will be relieved from assignments to attend all drills and lectures.

Three divisions of the civilians will be formed, with sub-divisions under navy and volunteer officers. During the last week of the cruise all volunteers will have deck duties exclusively. Every volunteer will drill as a member of a gun's crew and all will participate in some capacity in the target practice.

The mobility of the practice fleet may be somewhat limited while in Tangier sound, as only their reserve crews will be aboard and their maneuvers will be confined to their reduced capacity.

From Sept. 5 to 15, the fleet will be proceeding to and at ports of embarkation, participating in exercises with the mobilized yachts and motorboats in problems of defense of naval districts.

In co-operation with the cruising fleet, several hundred yachts and motorboats will hold maneuvers at Norfolk, New York, Philadelphia, Newport, Boston and Portland, Me. They will be organized, be given instruction in scouting, patrolling, signaling, maneuvering by signals, piloting and charting. The department plans the mobilization as an initial step toward a volunteer patrol service. The object of the week's work will be to organize, in a general way, the yachts and motorboats of the naval districts, and to give owners an idea of what would be required of them in time of war.

### FUSSY FRENCH WOMEN

PARIS, July.—Fine French perfumes are now being sold in ordinary drug-gists' vials, corked, instead of in artistic dagon with glass stoppers. This crisis is due to mobilization of glass workers in the north of France, and one of its revelations is that the art dagon has been representing a considerable part of the cost of perfumes. But among fastidious women the perfume business is not so sweet when prosaically presented, and a result is a new industry—that of collecting old perfume bottles into which the essences may be transferred.

## THE CHILD LABOR BILL

SEN. HARDWICK CHARGES REPUBLICANS WITH PLAYING POLITICS

—SEN. GALLINGER'S REPLY

WASHINGTON, July 22.—The child labor bill which President Wilson is urging for passage before adjournment of congress, got into the naval bill debate in the senate yesterday when Senator Hardwick of Georgia charged that it evidently was the purpose of the republicans of the senate "to play politics with this great measure." He called attention to Republican Leader Gallinger's statement that republicans, senators were eager for its early passage.

"I had no such purpose," Senator Gallinger declared. "I made the statement because the people of the country want the bill passed."

Senator Hardwick declared the measure was unconstitutional and recalled that Senator Gallinger had said so last February. Mr. Gallinger replied that he still had doubt about its constitutionality, but was willing to vote for it and leave the question to the courts.

There has been a great deal of change of mind about the constitutionality of this bill," said Senator Borah, republican. "The leader of the Georgian senator's party has changed his mind on that."

"Who is that?" asked Senator Hardwick, arousing laughter from his colleagues.

"The president of the United States," Senator Borah replied. "In one of his books Woodrow Wilson said such legislation was unconstitutional."

"Well, his book was right," Senator Hardwick asserted.

Senator Borah sought a unanimous consent agreement to take up the child labor bill as soon as appropriations were concluded, with debate limited to 12 hours on each side. Consideration of the proposal was blocked by Senator Swanson, who insisted on proceeding with the naval bill.

### NORTH SEA TRAGEDIES

LONDON, July.—That warships with physicians and nurses aboard should be held in readiness at ports of the North sea to guard against a repetition of the large and unnecessary loss of sailors by drowning during such a naval battle as that off Jutland, is the suggestion of the Norwegian newspaper, Morgenbladet.

The newspaper points out that physicians examining several of the German and British sailors washed ashore after the battle declared that the men could have been saved had they been picked up 24 hours earlier. The proposal is made that the Scandinavian government should open negotiations with both the British and German governments looking to the adoption of such measures as proposed for the saving of life after future engagements. The paper suggests that warships for rescue purposes be held in readiness at Christiansand, Gothenburg and Frederikshaven.

### BOLT STRIKES THREE TIMES

GRAFTON, July 22.—Lightning struck here three times last night. The house of Jule Dupuis, Oak street, a shed belonging to the Fisher Manufacturing company and an electric car on the Worcester Consolidated, were hit.

The fire department was called out in each case and succeeded in extinguishing the flames before much damage was done. The electric car was struck at Wheeler bridge. None of the passengers were injured, except for slight shocks. The entire electric lighting system is out of commission.

### NAVAL BILL TO CONFERENCE

WASHINGTON, July 22.—The senate naval bill went to a conference committee of the two houses today with every prospect ahead for a long struggle over its increased building provisions. The house is expected to insist on its plan for only five capital warships, three less than the senate voted and to fight the senate's three years program.

### TO ENCOURAGE VACATIONS

WASHINGTON, July 22.—Comptroller Williams today announced that 901 employees of the country national banks and 10 per cent. of clerks in national banks of reserve and federal reserve cities have had no vacations for five years. The figures were obtained from reports solicited in an effort to encourage vacations so that books may be examined in employees' absence and possible defalcations prevented.

# GRAND CIRCUIT RACES

## Pacer Sets New World's Mark for Three Heats in a Race—Slaughter of Favorites

NORTH RANDALL, O., July 22.—In one of the greatest three-heat pacer races ever staged, the Indiana Stallion, Single G, yesterday won the free-for-all pacer race, defeating the heavily favored Russell Boy and a high class field. Single G established a new world's record for three heats, beating the former mark by three-quarters of a second.

Three drivers felt the heavy hand of the judges because of their driving. The slaughter of the favorites continued, all four first choices falling by the wayside.

Russell Boy #200, Single G and R. H. Brett #50 each and the field #50 is a sample pool on the fast pace. The Boy made the early going in the first heat, but the slaughter battle was between Russell Boy and Single G, the former winning in 2:05 1-4.

Russell Boy set the pace in the second round, Gosnell keeping Single G in behind, but in a desperate stretch drive the Hoosier side wheeler won.

The time was rushed to the front at the start of the third heat, but Single G and Russell Boy had the duel from the half. At the distance stand, Russell Boy had distress signals up and Gosnell was looking over his shoulder at Murphy and taking his mount back at the finish in 2:01 1-4.

Worthy Prince Gets a Heat

The fastest previous three-heat race was won by Directum J. at Syracuse in 1914, Frank Bogash, Jr. winning the first heat in 2:02 1-4, and the stallion the next two in 2:00.

Single G, the choice for the 2:05 trotting class, was soundly beaten by the local mare, Joan, a star stake winner six years ago.

Worthy Prince, the big stallion from the Cox stable, which was second in the last year's majority of the stakes last year, was sent off on a break in the first heat and finished well back when Donna Clay, a half-mile track mare, won in 2:07 1-2. The pair battled it out in the second and the mare again won. She broke in the

third and Worthy Prince cashed on the heat, but Donna Clay topped the full summary.

The 2:18 pacer class was won by the local gelding Castaway, Contention B winning the second heat. Young Todd was favorite, but caught the flag in the second heat. The summary:

WESTFIELD RACES POSTPONED

WESTFIELD, July 22.—The Bay State Short Slight harness races postponed yesterday's card because of rain. It is planned to run off five classes today.

coaches who have succeeded in putting small colleges in prominent places on the eastern football map.

The recent report of the committee in charge of the building and management of the Yale bowl, the largest college football arena in the country, shows that the grounds and structure have cost almost \$750,000 to date and that another \$150,000 will be required to complete the project as originally outlined.

Monte Cross is responsible for a story of two base runners being put out by a batted ball. While playing with St. Louis, Cross was on second and Clements on third. Both base runners hit along the third base line and two on the batter both base runners hit along the third base line.

Neither hit along the third base line winging Clements and the ball came off the latter's shin and struck Cross just as he reached third, both being declared out as the result of being hit by a batted ball.

# INDIANS CARRY DOCTOR

## LEE FOHL HAS HIS OWN BONE-SETTER WITH HIM ON THE ROAD WITH CLEVELAND

Lee Fohl, 1916 miracle manager, is an apostle of preparedness. Always plotting into the future, the leader of the Cleveland Indians has introduced the novelty of conveying his own hospital corps with him on the road in the person of Dr. Charles Edward Moyer, registered practitioner and osteopath, whom the athletes call "The Bone-setter."

"Doc's" duties require him to be present at all times with the players to repair the maimed and injured, render first aid to the victims of charity horses and to replace muscles when they get out of order.

The new addition to the Cleveland machine was once a big league pitcher himself, having served with Washington in 1910. It was through trouble with his arm that he forsook the diamond and took up osteopathy which

landed him his present position. When his arm went lame in 1911 and he was relegated to the minors, Moyer's troubles piled up. He remained with Springfield, Mass., three seasons, but during that time was busy passing out two-dollar bills to doctors for relief. He finally decided to study osteopathy as the quickest and cheapest method of restoring his salary wing to working time.

After protracted study Moyer passed the examinations, and last year he was able to pitch better than he had for four seasons. Fohl knew him when the former was manager of the Waterbury, Conn., club. Moyer, at that time, being with Springfield, when Moyer, June last, his players this spring Fohl asked his old pal to join the Indians as medicine man.

Chief among the patients already on Moyer's list are Stanley Coveleskie, Guy Morton and Terry Turner. Coveleskie, a constant workman in the box, was getting a lame arm, but Doc fixed it. Morton is rounding up nicely under the bone-setter's ministrations and Turner is back on watch at third after a three weeks' layoff with a twisted ankle.

Chief among the patients already on Moyer's list are Stanley Coveleskie, Guy Morton and Terry Turner. Coveleskie, a constant workman in the box, was getting a lame arm, but Doc fixed it. Morton is rounding up nicely under the bone-setter's ministrations and Turner is back on watch at third after a three weeks' layoff with a twisted ankle.

After protracted study Moyer passed the examinations, and last year he was able to pitch better than he had for four seasons. Fohl knew him when the former was manager of the Waterbury, Conn., club. Moyer, at that time, being with Springfield, when Moyer, June last, his players this spring Fohl asked his old pal to join the Indians as medicine man.

# SPEAKER STILL ON TOP

## Increases His Batting Average to .389—Robertson Holds Lead in National

CHICAGO, July 22.—Tris Speaker's big part in keeping Cleveland in the American league pennant race is shown by averages printed here today, including games played last Wednesday. Speaker increased his batting average during the week to .389 and leads the hitters of his league in total bases with 162 and in runs scored with 67. Cobb is ahead in stolen bases with 36, Edalle Collins in sacrifice hits with 22, Baker in home runs with eight and Detroit in club batting with 256. The leading hitters who have played in at least half the games are:

Speaker, Cleveland, .389; Jackson, Chicago, .360; Cobb, Detroit, .357; Burns, Detroit, .306; Hollobitz, Boston, .294; Shotton, St. Louis, .294; Nunamaker, New York, .293; High, New York, .288; Strunk, Philadelphia, .284; Thomas, Boston, .282.

Heinie Zimmerman has battled his way to a tie for second place among the National league batters, he and Daubert hitting at .326, while Robertson is well in the lead with .349. Zimmerman also leads in total bases with 132, Carey, Pittsburgh, is ahead in stolen bases with 30, Plack, Chicago, in sacrifice hits with 27, Williams, Chicago, in home runs with 10 and Brooklyn and Cincinnati in team batting with 254. The leading batters:

Robertson, New York, .349; Daubert, Brooklyn, .326; Zimmerman, Chicago, .326; Wagner, Pittsburgh, .316; Chase, Cincinnati, .315; Long, St. Louis, .314; Hornsby, St. Louis, .313; Wheat, Brooklyn, .308; Schulte, Chicago, .308; Hinchman, Pittsburgh, .301.

Robertson, New York, .349; Daubert, Brooklyn, .326; Zimmerman, Chicago, .326; Wagner, Pittsburgh, .316; Chase, Cincinnati, .315; Long, St. Louis, .314; Hornsby, St. Louis, .313; Wheat, Brooklyn, .308; Schulte, Chicago, .308; Hinchman, Pittsburgh, .301.

Robertson, New York, .349; Daubert, Brooklyn, .326; Zimmerman, Chicago, .326; Wagner, Pittsburgh, .316; Chase, Cincinnati, .315; Long, St. Louis, .314; Hornsby, St. Louis, .313; Wheat, Brooklyn, .308; Schulte, Chicago, .308; Hinchman, Pittsburgh, .301.

# \$75,000 EMBEZZLEMENT ATTACKS GREAT BRITAIN

## National Bank Examiners and Neutral Diplomat Calls Blacklist Officers of New York Bank "Greatest Possible Tactical Blunder at This Stage"

NEW YORK, July 22.—National bank examiners and officers of the National City & Iron bank of this city have been conducting an investigation into the embezzlement of approximately \$75,000 by a trusted employee of the bank, it became known today. His name is being carefully guarded, and, according to President Sprout of the bank, there is no present intention of prosecuting him.

"It is true," said Mr. Sprout, "that one of our employees stole about \$75,000 but the bank is fully protected by bonding companies which have already made good their obligations. As far as the bank is concerned, the incident is closed. We do not even intend to prosecute unless the bonding companies request us to do so."

**PATROLMAN AN INVENTOR**  
Among the United States patents recently issued, secured through the efforts of Gen. Gardner W. Pearson, is one on a revolver holster to Joseph W. M. Noye, the well known police officer.

This holster can be quickly attached to and detached from the pocket and while the revolver is in place therein, it cannot be shaken out, but by a slight turn of the wrist, it can be withdrawn by the wearer.

**SPECIAL TOWN MEETING**  
The special town meeting for the election of a selectman to fill the vacancy caused by the death of Josiah Wright was held at Billerica today, the polls opening at noon. Owing to the fact that many people are away for the week end the voting was not heavy early this afternoon. There are two candidates for the office, Forest Collier and Prescott Pascho. Both were in the field at the last annual election. The polls will close at 8 o'clock this evening.

**OTHER OUTINGS**  
At 1:15 o'clock this afternoon the employees of the Lawrence hospital passed through Merrimack square on a special car bound for the beach. They will return at 9:30 this evening. Miss V. Coulombe headed the young women in charge.

A car containing the employees of the finishing room of the Tremont & Sut-

ton mill followed the Lawrence group to the beach. They will return at 9:30 this evening.

The U. S. Bunting employees are at leave beach today. They left this city at 8:15 o'clock this morning and will return this evening. The car was in charge of John C. Mitchell of 47 Auburn street.

LONDON, July 21, 7:50 p. m., delayed.—A neutral diplomat, exceptionally well informed regarding the details of the economic war which Great Britain is waging on the central powers declared today to a representative of the Associated Press that he regarded the recent publication by the British government of the blacklist of certain American firms as "the greatest possible tactical blunder at this stage."

"It is a blunder," continued the diplomat, "because it is unnecessary, since for months most of the firms on the list have been on a sub-veteran blacklist. At any rate they were not on the white list, so the government had complete control over any of their operations which touched British territory."

"The financial section of London is by no means unanimous in approval of the measure, even those in its favor being dissatisfied with its scope, contending that some omissions from the list are more significant than inclusions. One large banking institution on the list maintains close connection with one of London's largest banks and at the request of the latter some time ago made extensive changes in its directorate in order to eliminate men objectionable to its London correspondent. This London bank now wants to know why it is prevented from carrying on its American business through the blacklisted bank, while American firms known to have been actively connected with German loans and other activities are still on the white list."

"Its publication at this time is a mystery. One possible theory is that the government's hand was forced by recalcitrant British firms which may have declined to give up trading with firms on the white list until their position was made legally untenable by the actual promulgation of the list. If the government had desired to warn the British public, wider publicity would have been sought. The list was only published in the official London Gazette. None of the London papers printed it."

"The possibility of legal retaliation against the blacklist is a question for international lawyers, but the possibility of unofficial retaliation is almost unlimited. At least a Pacific coast firm of unimpeachable Americanism might make the position of British traders in a number of fertile fields decidedly uncomfortable."

Great uneasiness exists among American branch houses here where home firms have any financial or trading relations with Germany but they prefer to discuss the question for publication fearing the consequences of any indiscreet utterances.

Attention is called in these circles

to the appearance on the South American list of several firms declared to be financed by New York banking institutions which invested heavily in the Anglo-French loan.

Discussing these assertions, Lord Robert Cecil, minister of war trade, stated today that it was quite possible the government had not placed certain American firms with close German connections on the list for the very good reason that they had proven friends of the allies in regard to the Anglo-French loan. On the other hand, he said, if other friends of the allies were suffering through the exclusion of some of their connections on the list, the British government was ready to make necessary amendments. Lord Robert declared that names might be added to the list from time to time, while others might be removed, but that the blacklist as it now stands represents the American total, its list being less than the published list as names of partners in firms were repeated.

He admitted the possibility of making mistakes in the compilation of the list but stated firmly that its publication was much better than a possible extreme law providing that no British subject should trade with the enemy, no matter what his domestic enforcement of which doctrine would entail much greater hardship upon innocent parties than the present method.

**SHARKS OFF NEW BRUNSWICK**  
CHATHAM, N. B., July 22.—The presence of sharks along the New Brunswick coast was reported in a despatch received here yesterday from Tabusintac and other places. At Tabusintac it was said the sharks had driven the seals on to the beach.

**SAILORS CATCH SHARKS**  
BOSTON, July 22.—Catching man-eating sharks has been the sport of the crew of the U.S.S. Eagle, which has arrived at the Portsmouth navy yard after being stationed in Haytian ports for about five months. Several members of the crew were in Boston yesterday and showed photographs of some of their prize catches.

Dozens of sharks were caught, and the sailors had some exciting sport in capturing some of the big fellows. One of the largest landed measured 11 feet 6 inches from tip to tail. It was captured in the harbor of Caymanes in Hayti on April 28.

According to one of the Eagles' sailors the man-eaters are caught by means of a large hook baited with raw meat. It is necessary to shoot them after they are hooked. The crew have taken the teeth of the monsters as souvenirs and they have quite a collection.

**SCHULTE OF CUBS SAYS THAT HE'S FAR FROM BEING A HAS BEEN**

CHICAGO, July 22.—Frank Schulte, the Chicago Cubs' veteran outfielder, is hot under the collar. Why? Well, some eastern baseball critic recently said that Frank was ready for the discard and would not be with the Cubs next year. One needs only to watch Schulte in a game or to study his averages to learn that he is far from being all in as a regular player. He is playing the game as well today as he did ten years ago and says so himself. "I do not feel a bit older than I did ten years ago," said Schulte the other day, "and I do not find it any harder to play ball. The game has not advanced so much since that time to make me take a back seat for any younger player, and you will find that I will be well up in the batting averages at the end of the season. I think I am giving the Cubs better baseball than I have for years because we have a manager for whom it is pleasure to work. Tinker, in my opinion, is one of the smartest leaders the Cubs have ever had, with the possible exception of Frank Selce, who was a wonder." Schulte has been with the Chicago team for fourteen years. Picture shows Schulte batting.

## AID FOR TROOPS

While the response to the appeal for soldiers' families in this city and in other cities has been generous to a greater or lesser degree, there is a growing conviction that the task should not be left to popular contributions. Unquestionably the need for help is urgent, the cases are deserving and the obligation is obvious, but until the state or the federal government takes the matter over, the system shall not prove satisfactory. If the legislature were in session an appeal for state aid would be timely but as matters stand the people in the various communities must do the best they can until some other method is adopted.

This opinion is shared by the press generally and it is growing stronger as time goes on. The following excerpt from the Lynn Item is typical of the views of many:

When the next legislature convenes there should be no delay in the preparation and passage of a general law that will place the relief of the families of Massachusetts soldiers, whenever the national guard is mobilized and sent out of the state, upon the service rendered by the soldiers of the state is given to the whole people and the taxpayers should bear the burden as they do for every other public service. As the case stands today, in the absence of national or state aid a comparatively small number of people living in cities or towns where companies of the militia are located furnish the required aid to dependent families. The men at the front are not in the service of Lynn, Salem, Marblehead or any other town where they are residents when at home, but they are at the front as representatives of a sovereign state, and as such they are recorded and recognized. Representing the commonwealth as a whole, they are entitled to the support of every taxpayer in the state. Provision should be made for them in a general law, the money required by the state to pay the tax on each town, large or small, shall pay its allotted part and each taxpayer be given the satisfaction of knowing that he has borne his share of the burden which national defense lays upon him.

This states the matter clearly, but there is another point worth considering. No matter how generously the public may give or how effectively the funds may be distributed, the families of many troopers regard the proffered aid as charity, which it certainly is not in any sense. If the relief were in the form of a state appropriation this feeling would be done away with, and the entire public would view state assistance as one phase of preparedness for war preparation includes provision for the family of the soldier as well as care of the soldier at the front.

## SILLY CRITICISM

"Yes, the weather has been beastly this year," said the witty one, "but what can you expect from a democratic administration?" The remark was not taken seriously but other remarks of a like tenor only far more foolish are taken seriously by would-be politicians who feel that unless we elect Mr. Hughes the country is rushing to destruction.

No less an authority than Mr. Munsey's New York Sun blames President Wilson and the railroads of the country for 19 cases of pneumonia reported from the Mexican border. An eminent authority has come out to place the blame of the Lusitania horror on the same shoulders and the president is blamed because we are out of the war in Europe; because we are too much mixed up in it; because we are not at war with Mexico; because we are in a diplomatic controversy with Mexico; because we are not prosperous enough; because we are too prosperous; because we are neutral; because we are not neutral, etc., etc. The appearance of sharks off the Jersey coast is about the only thing for which the president escapes responsibility in the papers, but any old time you may see that he it was who moved the Gulf stream round.

We are not living in Arcadia or in the millennium. The weather has an unfortunate habit of changing its mind without warning and the best meal may lead to indigestion. Grumblings and complaints are inevitable. But, when was war a pink tea and when did soldiers travel de luxe? Undoubtedly some of the brave boys at the border are sick, but some would have been sick at their summer camps at home. The president cannot change the Texas climate or make crystal springs gush from the desert. Unquestionably he has not yet stopped the war, put down infantile paralysis, given everybody a month's vacation with pay, and so on. He is just now in the American pillory, commonly called the White House, and it is the fashion to make him out the scapegoat for the sins of the people. He is rather austere they say, but like Lincoln, he has a sense of humor. Lord knows, he needs it, and if his friends keep him posted on some of the ridiculous criticisms to which he is subjected, he will not have to read Artemus Ward or Mark Twain.

## MUST GIVE CREDIT

If President Wilson were playing politics lately in his official acts, as some accuse him of doing, he would not have appeared before the senate leaders the other day and urged them to pass the child labor bill which is so distasteful to the south. This legis-

lation has been urged by Massachusetts and other states that have adopted its provisions, but it has been opposed from the first by the south where it is most needed. President Wilson did not have to urge the measure before congress to prove his interest in humanitarian legislation and all sections must give him credit for his sincerity in coming out openly in favor of a bill that is opposed by the section where he is most strongly favored. Even the Hughes newspapers have refrained from ascribing any selfish motive to President Wilson in this instance.

Another administration policy which cannot be aspersed is the federal reserve act, which has done so much for the financial position of the United States in a time of world disorganization. The partisan press opposed to the president make little or no reference to it, because they are wise enough to see that any reference to it is a boost for the man who put up a stiff fight and steered the measure through congress. Thanks to the revised currency bill, America today dominates the money world and there was not a semblance of panic when all the markets of Europe were in a turmoil.

As with the child labor bill so it was with the rural credits bill, which has done a great deal for the farmers of this country. President Wilson pledged himself to work for it in his inaugural address and he forced action on it in congress when it was in danger. Presidents Roosevelt and Taft had promised much and had performed nothing, but President Wilson used his party influence to advantage in securing congressional action. For this even the opposition must give him credit, there being no chance of adverse partisan plays in a matter where the argument is so squarely on the side of the president.

## ONE CENT MAIL

Speaking before the national association of postmasters a few days ago Postmaster General Burleson declared that if revenues from second class mail were increased, extravagance curtailed and payments to railroads reduced, he would be able to recommend to congress next year the reduction of letter postage to one cent. Putting aside the "if" which in this instance is a considerable barrier, it is questionable if much sentiment exists for a one-cent letter postage. While American business and American citizens generally would like the reduction, they are more anxious for an efficient postal system than they are for a diminution of costs. The first consideration is one of service and when sending letters people are more concerned to know if the letter will surely go to its destination and if it will go promptly than if it will go for one cent. If Mr. Burleson can promote efficiency while reducing postal rates, then let the reduction come by all means, but if such reduction would mean the reduction of service standards which are not exceptionally good at present, he had better forget all about it. The postal department should perfect what we have before talking about sweeping changes that might be worse instead of better. One cent letter postage is a good thing to think about but not to act on—just yet.

## WHO OWNS THE BEACH?

Let us forget that the public still has some constitutional and legal rights, an occasional test in the courts establishes fundamental ownership by the people. In this part of the country we may be a little hazy as to who owns the rivers and the river banks, but we have just been shown beyond doubt that the seashore belongs to the public. After a fight of several years in New York the people of that state have won a triumph against one of the Coney Island promoters of amusement who had built barriers down to the low water mark and had striven to exclude the public. The New York court of appeals has just ordered the barriers removed and laid down the law for all states which have salt water frontage. No individual has the right to set apart for private use any portion of a beach below high water mark. Depending on casual observation it seems to us that there are opportunities to put the law to a parallel test in nearby beaches, but the rights of the people in this respect have not been so intruded on in New England that there is any suffering as a result.

## YOUNG PROVIDERS

A day or so ago a ragged little girl from Belvidere came down Middle street carrying a large wooden frame-work that evidently had been around a piece of machinery. It was heavy and awkward, but she literally pulled and pushed it along by inches, pausing between the efforts. In this way she got her burden through busy streets where traffic is heavy, and so home. She is but one of a large class encouraged by the well meaning but

## MILL AND FACTORY EMPLOYES

39 MERRIMACK ST. Lowell's Leading Opticians. Est. 1899.

dangerous co-operation of stores that leave packing cases and litter of all kinds where the children may get it. So long as there is not an accident the public is indifferent, but just as surely as this keeps up we shall have a tragedy and a prompt demand for a change of policy. Looked at from any angle, to encourage the children of certain sections to go out for coal or wood has many undesirable features, and it is doubtful if help makes any material change in home conditions.

## "NOT ONE STATESMAN"

George Brandes, a noted Danish author, in a severe arraignment of Europe says that in all of the nations fighting today there is not one statesman. Had there been even one diplomat of surpassing ability he thinks the war would not have come about but "the generals got the best of the statesmen." Where so many international interests were involved, it does not seem that any one man could have done much to avert the war, and surely there has not been a chance for statesmanship to show since it flamed up. With the close of the war will come the great opportunity and posterity shall determine whether Sir Edward Grey or Lloyd George, or Byland or the German Kaiser or somebody else shall prove the dominating personality. Not alone in the immediate settlement to follow but in the reconstruction that must go on for years will the great man of the future find his opportunity for world service.

## SEEN AND HEARD

How seldom it is that a man finds time to come around the next day and tell you he was wrong.

Only One of Many  
Some people hate publicity like the young Delia man. He was dressed in a light-fitting suit of the latest cut, and his whole costume was a dream of sartorial refinement. And he was plainly embarrassed as he entered the editor's office.

"I was intensely shocked to read a notice in your paper of my engagement," he began. "I cannot tell you how shocked I was. I was positively chagrined. My fiancée was chagrined; we were all chagrined. How much for 50 copies of the paper?" — Rehoboth Sunday Herald.

## Something in Names

"Call for Mr. Baker," Call for Mr. Baker," piped out the callboy in a Muncie hotel and was followed by another who drew out: "Call for Mr. Carpenter!" Call for Mr. Carpenter!" Not to be outdone, a third chimed in with: "Call for Mr. Mason!" Call for Mr. Mason!"

In the lobby two traveling salesmen, strangers, were sitting in chairs near together. "Looks like there must be a trades convention on here," ventured one. "They ought to have called me, too—my name's Brewer." "The blank it is!" exclaimed the other. "My name's Freeman. Let's see what we can do for it." — Indianapolis News.

## Some Hot Retort

In a certain provincial town there lives an old maid who has the reputation of being about the fastest talker on record, added to which her tongue has more than the average amount of venom. One day recently, however, she met her match. A peddler called and had the impudence to ring the door bell. A moment later the woman saw who it was she at once gave him a piece of her mind, finally concluding with:

"And, now, then you can be off. There's nothing you can sell me that will be of any use to me."

The peddler, who was evidently no novice at getting his own back, turned on his heel, saying as he did so:

"No mum, seem as 'ow I'm only sellin' mousetraps an' no muzzles, I don't see as 'ow there is!" — Rehoboth Sunday Herald.

## Accepting a Proposal

A certain government clerk, so the story goes, got a raise in his salary

some time ago. With his heart palpitating joyfully, he rushed to the telephone office when his day's work was over and dispatched a message to the girl of his choice in his home town, apprising her of his new good fortune and asking her to become his life partner, a step he had long been contemplating but which his former limited salary had deterred him from taking.

He prepaid the reply at the minimum price and her answer, therefore, had to be limited to 10 words. The young fellow's suspense of waiting was intense but very brief. The girl's message came in a few minutes: "Yes, gladly, willingly, joyfully, delightedly, gratefully, lovingly. Yes, yes, yes!" — Pathfinder.

## Just Like a Woman

The hour for their wedding ceremony had arrived. The bride and bridegroom were discussing what fee he should give the minister.

"Ten dollars is enough, don't you think?" he asked.

"Oh, ten dollars isn't much at such a time as this," and he reached out for his bill book and drew out two \$5 bills.

"Five is enough," said the bride. "We will need that other five, maybe."

Wedding day being the worst day in a couple's career for an argument, the bridegroom obeyed and put the other \$5 bill back in the wallet.

After the ceremony the minister shook hands with the bride first. Then he turned to the bridegroom, grasped his hand and received the envelope offered him. He didn't open it. The couple turned started to leave, but the minister called the bride back.

"Here's a wedding present for you," and he handed her the envelope. Her face beamed.

"Outside she opened it. It held the \$5 bill.

"Why didn't you give the minister ten dollars?" she complained. — Kansas City Star.

## Handsome Is That, Etc.

The idea that handsome is that handsome does has caused so much trouble ever since it was first sprung upon an unsuspecting world that it is high time it is disposed of. In the first place if you are worth being handsome, especially if you happen to be a girl, you don't have to do anything else. As a matter of fact, no beautiful girl ever does anything else. It isn't necessary for her to cook or sew or even talk. All she has to do is to sit still and be loved, and the line usually forms at her right.

Usually, on the other hand, the mere fact that you have done it is supposed to insure your being handsome. What nonsense! If you do the handsome thing it will never be regarded as handsome by the only people whose opinion is worth while, because with them doing the handsome is so usual that it becomes commonplace. If you are homely nothing you do will be handsome.

To do a handsome thing, therefore, always start by being handsome. Then you won't have to do it. — Life.

## Growing Old

A little more tired at the close of day. A little less anxious to scold and blame.

A little more care for a brother's feelings.

And so we are nearing the journey's end. Where time and eternity meet and blend.

A little less care for bonds or gold. A little more rest for the days of old.

A broader view and a sinner's mind. And a little more love for all mankind.

And so we are facing down the way that leads to the gates of a better day.

A little more love for the friends of youth.

A little more zeal for established truth.

A little more charity in our views. And so we are finding our tents away. And passing in silence at close of day.

A little more leisure to sit and dream. A little more real the things unseen.

A little nearer to those long loved and dead.

And so we are going where all must go.

To the place the living may never know.

A little more laughter, a few more tears.

And we shall have told our increasing years.

The book is closed, and the prayers are said.

And we are part of the countless dead. Thrice happy, then, if some soul can say:

"I live because he has passed my way." — Dr. A. V. Barnes.

## ABANDONED BY CREW

BRITISH SCHOONER ALBERTA FOUND DRIFTING BY CUTTER — CREW MISSING

CHATHAM, July 22.—The British schooner Alberta, abandoned yesterday by her crew of six men, was found drifting off Shovelight Lightship today, by the United States coast guard cutter Aushnet. What became of the crew was not known here although it was believed the men took refuge aboard the Round Shoal lightship. The Aushnet left New Bedford last night in response to a message that an unidentified fishing vessel was ashore in Vineyard sound. The Alberta, bound south from Lunenburg, N. S., with lumber, was taken in tow for Vineyard Haven by the cutter.

## DENY SECRET TREATY

HUNGARY PRESS BUREAU CONTRADICTION REPORT OF AGREEMENT WITH GERMANY

LONDON, July 22.—The report that a secret treaty had been concluded between Austria-Hungary and Germany, providing for the unification of armies and conduct of foreign affairs, is emphatically denied by the Hungarian press bureau, according to the Vienna correspondent of the Exchange Telegraph Co. The bureau characterizes the report as a pure invention.

## IDENTIFIED AS LEYDEN

Man Drowned in Nashua Company's Canal While Swimming Was a Resident of Hinsdale, Mass.

NASHUA, July 22.—John Leyden of Hinsdale, Mass., yesterday afternoon identified the body of the man drowned in the Nashua Company canal Monday night as that of his brother, William H. Leyden of Hinsdale. The body will be sent to Hinsdale tomorrow morning for burial.

The drowned man was a spinner in the Hinsdale mill and single. He also leaves a sister, Mrs. Thomas Ryan of Hinsdale, and another brother, Chas. of West Springfield, Mass. Leyden went swimming in the canal his clothes were found on the canal bank four hours later, and the body was found Wednesday afternoon.

## BUILDING AND REALTY

### Contractors Complain of Scarcity of Help—Building Activities Include Three New Theatres

The builders of Lowell are in about the same predicament as the farmers, for they cannot hire help enough to keep up with the many jobs they have on hand. Excavators and laborers in general are hard to reach and those who are willing to handle the pick and shovel are getting fairly high wages for their labor.

Despite the scarcity of help, however, there are many buildings in process of construction. Among the large buildings being erected in Lowell are three new theatres, two in Middlesex street and another in Central street; a church in St. Louis parish; a large manufacturing plant in Middlesex street, and several large tenement houses.

One of the new theatres will be located at 55 Middlesex street and is being erected for Samuel Orbach, co-owner of the Owl theatre in Central street. The new building will be of brick and steel. Its dimensions will be 44 feet wide by 92 feet long and 57 feet or five stories in height. The theatre will be for moving pictures and its seating capacity will be about 1100, the auditorium to contain about 600 seats, while the balcony about 500.

The plans which called for a movable roof have been changed and instead a pitched, immovable roof will be put on. The front of the building will be of white brick and will be decorated with numerous electric lights. The lobby leading to the theatre proper will be large and will have six exits, while there will also be two entrances to the balcony from Middlesex street.

The general contract for the work has been given to Arthur Deziel, who expects to complete the foundation sometime next week. The side walls, which are of brick, have reached a height of about 20 feet and work is being pushed along so fast that it is expected the new theatre will be ready for occupancy in the latter part of September. The cost of the building will be about \$30,000.

One of the busiest men in Lowell is Contractor Charles Witham, who has undertaken to improve the Belvidere section. Mr. Witham is now constructing 12 cottages in the vicinity of Fort Hill park and two in Putnam street. The plans for all the houses are alike and they call for eight rooms with all modern improvements.

The two large tenement blocks which are being erected in James street for Dr. Adelard Payette are nearing completion. One is a six-tenement block and the other contains three tenements. The planning is nearly complete and it is expected the finishing touch will be started next week.

Grace A. Smiley is having a two-apartment house erected at 559 Stevens street. Each tenement will contain five rooms with pantry and bath and reception hall. The building will be 35 feet by 45 feet and two and a half stories high and will have bay windows on the front and side. The cost of the house will be about \$2350.

A \$5000 building will be erected on the site formerly occupied by the School street school, which was recently sold to Mrs. Laura A. Cantin. The old school building has been demolished and the lumber removed, and men are busy excavating for the foundation of the new building, which will contain four large flats, each tenement to have six rooms, pantry and bath and reception hall. The building dimensions will be 37 feet, 8 inches by 24 feet, 2 inches. On each end of the building an ell 27 feet and 8 inches by 32 feet will be placed.

Patrick J. and Minnie A. Morris are having a home constructed at 112 Graham street. The house will contain eight rooms with pantry and bath and its dimensions will be 30 feet by 30 feet and two stories in height. In the rear of the new home a storage shed will be erected at a cost of \$1500, while the cottage will cost about \$1500.

The one-family house at the corner of School and Varney streets, owned by Simon Orner, is being converted into a two-tenement building, the basement to be finished for a store. A one-story addition, 12 feet square will be erected and interior improvements will be made.

## WELL ARRANGED COTTAGE PLAN

PERSPECTIVE VIEW—FROM A PHOTOGRAPH

FIRST FLOOR PLAN. SECOND FLOOR PLAN.

This design has a living room across the entire front, with a spacious dining room in the rear. The small den or sewing room in the rear opens into the dining room. Combination stairway with grade door underneath. Three chambers in the second story and abundance of closet space. Large bathroom, linen closet and a sleeping porch connecting with the rear chamber. A full basement. First story 9 feet, second story 8 feet. All of the chambers in the second story finished full height. Size 25 by 28 feet over the main part. This cottage can be built for \$2200 exclusive of heating and plumbing.

handsome building site near Nesmith street in the Belvidere section. The general surroundings are among the most attractive in the city. The lot has an area approximating 16,000 sq. ft. with a street frontage in excess of 100 ft. and an outlook second to none in Lowell. The assessment is at the rate of 15c per foot. This sale is negotiated on behalf of a local owner, the purchaser being a local business man who will erect a residence for his personal occupancy in the immediate future.

## EDWARD BONHAM Architect

407 SUN BLDG.,  
Lowell, Mass.

THE DESIGN AND SUPERVISION OF ALL TYPES OF BUILDINGS

## THEY DO SAY

That we all have habits we find hard to correct.

That the pavers put something over on Charlie.

That Frank and Mabel like to walk by the moonlight.

That the real boy always turns out to be a true man.

That the "I told you so's" were out in force yesterday.

That the bouquets you don't get often look like lemons.

That you lose weight every time you get into a frenzy.

That those letters from Camp Cotton are very interesting.

That to suspend judgment is generally a pretty good move.

That drinking cold drinks on a very hot day is very poor dope.

That some school teachers were intended for something else.

That the new Pawtucket bridge will soon be getting a hump on.

That they are still saying things about that city automobile.

That \$50 is pretty golden cheap for a dwelling and two stores.

That Lowell will be well represented in the Boston Light swim.

That Starter Sears of the Bay State is sporting a new "leghorn".

That Harry Jenkins spent most of the day in the palm gardens.

That the Lowell colony at Hampton beach is beginning to bloom.

That the size of the sharks depends upon who is telling the story.

That the South common is a very popular resort these hot nights.

That it isn't so much the experience as the after-effects that count.

That Edmond was bitten by the flies at Salisbury last Sunday.

That city department heads are not as a rule experts in their line.

That the board of health inspectors are very busy men these days.

That the police ball game, as usual, was a few hours late in starting.

That Joe has sold the silver and just for that we'll all have to walk.

That several new members joined the "ice cream club" this week.

That it certainly looks good for a world's series in Boston this fall.

That girls with big feet love to wear white shoes and we wonder why.

That the Oulja board told Nellie she will marry George within a year.

That a Gorham street jitney driver had a close shave Thursday night.

That this has been good beach weather, but we're not at the beach.

That Pres. Wilson's efforts to get food to Poland are approved by all.

That some people are so slipshod in their minds that they are incurable.

That sometimes we know a thing perfectly well when we can't prove it.

That it isn't hard to tell when a fellow is on the best of terms with himself.

That a real contest is expected in the 11th representative district this fall.

That a woman can do a lot of work if you let her do it in her own sweet way.

That the wisest man we know is liable to make at least one break a day.

That Merrimack square is a rather lonesome place on a Thursday afternoon.

That Arthur DREWELL is looking for a new bat for his home run performance.

That the Oulja board said something terrible when asked what Billy was doing.

That every new mean man makes us forget the meanest ones we used to know.

That Abe Martin says you may marry to please your parents and repent at leisure.

That the girls at the Cartridge shop are not afraid of the sharks at Nantasket.

That it looks as if at least one of the Boston Light cups will come to Lowell.

That Frank is sorry he missed the last dinner of the board of trade directors.

That even a committee as humble as the waterways committee may do some good.

That some of these cheerful liars are such good company you can't help but love 'em.

That it is hard for some office holders at city hall to realize they are public servants.

That Newell got terribly fussed up over that little interview with the superintendent.

That some men seem to think it isn't

possible to have a good time without getting drunk.

That John made a safe trip to Boston and return on his motorcycle Tuesday night.

That a couple of patrolmen find it more lucrative to work on other jobs now and then.

That the hot weather is one of the principal topics of conversation at the present time.

That the people who make the most effort to be happy are not the happiest individuals.

That the "nobody home" sign was hung out in the vicinity of the Cartridge shop today.

That the Sun building will remain the highest building in Lowell for some time to come.

That if all drivers were as careful as John Couter there would be very few auto accidents.

That Major Colby T. Kittredge is looking for young men who would like to serve Uncle Sam.

That the city planning board hasn't been heard from since the waterways committee was appointed.

That the placing of Robinson at second base and Torphy on first seems to improve the Lowell infield.

That automobilists who do not observe the law will not receive much leniency from Judge Earhart.

That a man cannot change his habits as easily as he changes his clothes, but some men think they can.

That the fire captain is sufficiently interested in the big girl with the brown suit to pay her carfare.

That all baseball fans join in wishing Christy Mathewson success as manager of the Cincinnati Reds.

That Rodrick Descheneaux holds the distinction of purchasing a real big house for the small sum of \$30.

That somebody is to be congratulated for their taste in selecting a color for the life saving apparatus.

That Chairman Gould of the county commissioners does not own the court house or any other public building.

That the Knights of Columbus are to be congratulated upon the move to send notes to the members of Company M.

That the residents of West Centralville were surprised to find that fire alarm box 623 had been installed. They have been waiting for it since last fall.

That the young man, carrying a baby which had just met with an accident, is very grateful to the autoist who stopped and took him to the doctor's office.

That the management of the local ball club is making a good move in giving local talent a chance, but a greater move would be to start the games earlier.

That it would be well for the police to see that the operators of automobiles observe the law relative to dimmed lights.

## DEMOCRATIC CAMPAIGN

VANCE MCCORMICK CONFERS WITH PRESIDENT WILSON AND OTHER LEADERS

WASHINGTON, July 22.—Vance C. McCormick, chairman of the democratic national committee, conferred with President Wilson, senators and representatives and other democratic leaders here today on the democratic campaign and details of the plans for re-electing a democratic senate and house. The first definite work of this kind will be done in Maine where the democrats will put forth their best efforts.

President Wilson has his speech of acceptance well under way, although he will not complete it until after former Justice Hughes delivers his speech of acceptance in New York July 31.

Former Senator SERIOUSLY ILL. OMAHA, Neb., July 22.—John M. Thurston, aged 70, former United States senator from Nebraska, is seriously ill at a hospital here. Physicians attribute his illness to the continued hot weather.

That the management of the local ball club is making a good move in giving local talent a chance, but a greater move would be to start the games earlier.

That it would be well for the police to see that the operators of automobiles observe the law relative to dimmed lights.

# "BABES IN THE WOOD"

---

FAIRY TALE DUPLICATED  
LITTLE BOY AND GIRL

**WOODS SINCE TUESDAY**

**WATERBURY, Conn., July 22.**—A baby, the of "Babies in the Woods" has been duplicated in the woods of Lakewood park, this city, by Andrew Yankauskas, aged 3, and his sister Mary, aged 8. The children left home on Tuesday to go fishing. Since then they have lived on wild berries and have been sleeping in the woods. Their parents had given them up for dead, believing they were drowned when they were located today by Sergeant of Police McLean.

## GREAT NAVAL BILL PASSED

### Senate Adopts Measure by Vote of 71 to 8—Immediate Construction of 66 Vessels

WASHINGTON, July 22.—The naval appropriation bill, with a three-year building program, including the immediate construction of four dreadnoughts, four great battle cruisers and 58 other craft, passed the senate late yesterday by a vote of 71 to 8. It carries \$215,528,843, or \$15,858,585 more than the total of the measure passed the house.

Many proposals to curtail the enormous building increases written into the measure by the senate naval committee were defeated over a veto made by the senate. The measure was announced by the senate voted to insist on its amendments and send the bill at once to conference.

The house is expected to insist on its building program, and a long struggle is in prospect before agreement is reached.

**Conferees Appointed**  
Two democrats, Senator Thomas and Yandaman, and six republicans, Senators Clapp, Curtis, Gronna, La Follette, Norris and Works, were named to the conferees. The conferees will meet today and the conferees will meet today and the conferees will meet today.

**Calls for 157 Vessels**  
Construction of 157 vessels, including 10 capital fighting ships, within three years, at an estimated cost of \$58,180,575, is contemplated in the senate program, the largest ever proposed in congress. Of the total appropriations in the bill \$10,726,100 is for the first year's building expenditures.

**As it passed the house, the measure authorized the construction of 157 vessels, including 10 capital fighting ships, within three years, at an estimated cost of \$58,180,575, is contemplated in the senate program, the largest ever proposed in congress.**

## CAMP WHITNEY

### Six Officers Quit U. S. Service—Gov. McCall Reviews Recruits

FRAMINGHAM, July 22.—Six officers of the National Guard of Massachusetts who have been in the military service of the United States at this post, were mustered out yesterday morning and immediately left for home to resume their civil activities.

There officers were: Maj. William H. Dolan, 6th infantry; Maj. William L. Conrad, Q. M. C., recently serving on the staff of Brig. Gen. E. Leroy Sweetser; Maj. Harry A. Skinner, coast artillery corps; Capt. Josiah Hathaway, Q. M. C.; Capt. Henry H. Wheelock, quartermaster, 6th infantry; Lt. Harold G. Giddings, medical corps. These officers, most of them, have been at this camp ever since the 2d brigade left it for the south and all of them have rendered excellent service. All of them were anxious to be relieved as their business was suffering, except, possibly Maj. Conrad, who was very desirous of joining his brigade commander on the border.

A number of officers left who have been complaining at being kept in the service with nothing to do, were given the opportunity to exchange places with several officers who are ready to take their places, but when the possibilities of an exchange were put up to them there wasn't a single officer who would take up with the offer.

The recruiting party of 20 officers has absorbed all the information possible as to its duties and now awaits orders and assignments from the eastern division to start on their work. It is understood here that the assignments which have been published by the press recently are the suggestions of the adjutant-general of the state, made at the request of the war department, and may be considerably changed when they come to be given out.

Should shifts be made, there are a few officers who believe their charges would be more satisfactory to themselves at least than the ones which they understand they may have to take.

Today is a sort of half-holiday here and everybody has been invited by Col. Sweetser, camp commander, to visit the field and witness a review of the recruit battalion by Gov. McCall. The review will be at 4:30 p. m. and the gates of the camp will be opened at 4 p. m. No passes required. The 6th infantry band has been detailed to furnish music for the occasion and for an evening concert.

While no date has yet been set for the departure of the recruits, it is likely that they will be moved south some time before the middle of next week. The infantry recruits, in addition to having a complete outfit as did the first 7000 that were sent off, also have rifles of the latest type and are in fine shape generally.

**WOMEN DO MEN'S WORK**  
BRITISH WOMEN GIVE IMPRESSIVE DEMONSTRATION OF THEIR PART IN WAR  
LONDON, July 22.—British women gave an impressive demonstration of day of their work in the war. Thousands of them took part in a parade through the central districts of London. The parade was divided into numerous sections with tableaux representing women in working costumes, showing how they have replaced men in various activities. There were women in overalls, in uniform, in conductors' uniforms, street car conductors, railroad workers and agricultural workers. Other women impersonated troops from the British dominions and from all the allied armies. At the conclusion of the pageant wreaths were deposited on the monument of Wellington and Nelson.

## GERMANS HURL GAS

### Judge Pickman Submits Cause of Death of E. B. Stewart

The Germans bombarded violently French positions in the sectors of Fleury and Fumini wood. In the region of Moulin-sous-Toutvent, a strong German reconnaissance was dispersed. The statement follows:

Between the Oise and the Aisne we dispersed a strong reconnoitering party of the enemy in the region of Moulin-sous-Toutvent. In the Argonne we exploded a mine with good results at Bolante. A surprise attack of the enemy against a small position at Fillemotte was repulsed.

On the right bank of the Meuse (Verdun sector) there was a violent bombardment of the sectors of Fleury and Fumini wood. An attack by the enemy on a trench south of Damoupy was beaten back by our fire.

In the Vosges after a spirited bombardment the Germans delivered an attack at 11 o'clock last night against our positions northwest of St. Die. It was repulsed with heavy losses.

One of our aeroplane squadrons yesterday bombarded three times the railway station at Metz-Sablon, throwing 115 bombs of great size on the railway buildings and tracks. The bombardment must have caused great damage. In the course of one of these expeditions a German aviator was brought down. One of our machines was compelled to land after an attack and has not returned.

**THREE ALLIED STEAMERS SUNK—CREWS OF TWO LANDED AT ALGIERS**  
LONDON, July 22.—A despatch to Lloyds from Algiers says that the British steamer Karma, 2557 tons, and the French steamer Corais, 1200 tons, were sunk. The crews were landed at Algiers.

**SIX TRAWLERS SUNK**  
BERLIN, July 22 (by wireless to Sayville).—Six British trawlers were sunk by German submarines off the English east coast on July 17, says a German admiralty statement today.

**GEN. HAIG BELIEVES WAR WILL BE DECIDED ON WESTERN FRONT**  
PARIS, July 22.—Senator Henry Berenger, who has returned from a visit to the British field headquarters, quotes Gen. Sir Douglas Haig as saying: "We must impose a peace that is really valid; as we shall have paid for it."

## CAUSE OF DEATH

### Judge Pickman Submits Cause of Death of E. B. Stewart

The finding of the inquest into the cause of the death of Edwin B. Stewart, an employee of the Boston & Maine railroad who was killed while at work in the vicinity of Middlesex Village on May 9, submitted by Judge John J. Pickman, this morning, is that the negligence of the engineers was not the cause of the death of Stewart attributable to the criminal negligence of the Boston & Maine railroad.

The finding in part reads as follows: "I find that the engineer of the construction train backed the train under his control too rapidly for safety, and thereby brought the train with greater force than was necessary against the cars to be connected and coupled in the construction train. When the conditions on the track prevented the engineer from getting the signals from the person whose duty it was to give the signals to regulate the speed of the train after the motion had been made to start the train backward, I am of the opinion that the engineer should either have stopped the train or moderated the speed of the train. In any view of the course that he should have taken, he was called upon to exercise the utmost caution in operating the train, as for a time he was running without the aid of the information usually given to him under normal conditions. The engineer had been in the employ of the railroad company as an engineer for about four years, and was familiar with the operation of the trains under all conditions."

"The engineer testified that when the motion was given to start the train backward it is customary to continue until a 'chuck' is made, and that Mr. Stewart had been given warning that the train was approaching the standing cars, and that he acknowledged the warning."

"I find that on Tuesday, the ninth day of May last, past about ten minutes after seven o'clock in the morning, Edwin B. Stewart, a resident in the service of the Boston & Maine railroad, standing upon a car that was owned and operated by said railroad, a short distance west of the Middlesex Village railroad station, in said county, was thrown from said car upon the railroad track by the force of the motion to connect said cars therewith, when said train came in contact with said car, whereby said Edwin B. Stewart was run over by the cars attached to said railroad train, and thereby sustained injuries that caused his death."

"I find that the negligence of the engineer in the operation of the construction train was not of such a gross and wanton character as to make the death of said Edwin B. Stewart attributable to the criminal negligence of said Boston & Maine railroad, or of its agents or servants."

"Lowell, Mass., July 21, 1916. Respectfully submitted, John J. Pickman, Senior Special Justice of the Police Court of Lowell, and Acting."

**FUNERALS**  
CHALFOUR.—The funeral of Blanche Chalfour, two-year-old daughter of Mr. and Mrs. Cyrie Chalfour, who was killed by a fall at her home, took place yesterday afternoon from the home of her parents, 171 Hall street, Burial was in St. Joseph's cemetery, under the direction of Undertaker Joseph Albert.

**FUNERAL NOTICES**  
CONVERSE.—Died in this city, July 22, at 555 Westford street, Mrs. Jane E. Converse, aged 74 years, 3 months, 28 days. Private funeral services will be held from her home in Woodstock, Vt., Monday afternoon. The funeral arrangements are in charge of Undertakers Young & Blake.

## THE MEXICAN SITUATION

### Acceptance of Carranza Proposal for Joint Commission Appears Certain

WASHINGTON, July 22.—Acceptance here of the Carranza government's proposal for a joint commission to settle the difficulties between the United States and Mexico appeared certain today. An announcement was expected momentarily. The only delay, apparently was for time for a reply from Carranza to suggestions that the proposals be amended somewhat.

There have been indications that President Wilson is for a more general discussion of the questions involved. A discussion of the questions involved in the Mexican communication of July 11 just made public in Mexico City. The note would hold the commission to three subjects—withdrawal of American troops, arrangement of a reciprocal agreement, under which troops of either government might cross the border in pursuit of bandits and investigation of the source of bandit raids on American towns.

American government officials believe widening the scope of discussion would offer opportunity for evolution of a plan of action that would rehabilitate Mexico.

**GEN. CALLES HAS BEEN ORDERED TO MEXICO CITY**  
WASHINGTON, July 22.—Gen. Calles, Carranza military chief in Sonora, state; has been ordered to Mexico City, according to a message to the war department yesterday from Col. Sage at Nogales, Ariz. There appears to be some doubt that he will return to the border region, the message alleges, although the purpose of his trip to the capital is not given.

**MAKE CHANGES IN CABINET**  
MEXICO CITY, July 22.—Gen. Carranza is considering changes in his cabinet to be made in the immediate future, according to reports in official circles here. It is said, however, that no definite program has yet been decided upon.

At the offices of the minister of foreign affairs today it was stated that no reply had been received to the last note sent to Washington regarding the settlement of the differences between the United States and Mexico. The under-secretary of foreign affairs, referring to the proposed American-Mexican commission said that the Mexican commissioners have not yet been named.

**RECORD NUMBER OF DEATHS IN LAST 24 HOURS—558 HAVE DIED SINCE INCEPTION OF PLAGUE**  
NEW YORK, July 22.—There were more deaths in the epidemic of infantile paralysis during the last 24 hours than in any like interval of time since the inception of the disease four weeks ago. Since ten a. m., yesterday, the plague killed 39 children in the five boroughs of New York city. There were 135 new cases.

The plague took a big stride in Manhattan where there were 10 deaths, the largest number yet reported. In the Bronx also, the deaths gained. Here there were five deaths. A marked increase was shown in Brooklyn, the seat of the disease, and cases and deaths in the other two boroughs indicated that the epidemic, aided by a wave of high humidity, was becoming more widespread. Cases to date total 2662 and deaths 558.

## EPIDEMIC WAVE GROWS

### Record Number of Deaths in Last 24 Hours—558 Have Died Since Inception of Plague

NEW YORK, July 22.—There were more deaths in the epidemic of infantile paralysis during the last 24 hours than in any like interval of time since the inception of the disease four weeks ago. Since ten a. m., yesterday, the plague killed 39 children in the five boroughs of New York city. There were 135 new cases.

The plague took a big stride in Manhattan where there were 10 deaths, the largest number yet reported. In the Bronx also, the deaths gained. Here there were five deaths. A marked increase was shown in Brooklyn, the seat of the disease, and cases and deaths in the other two boroughs indicated that the epidemic, aided by a wave of high humidity, was becoming more widespread. Cases to date total 2662 and deaths 558.

**NEW YORKERS ARE BARRIED**  
NEW YORK, July 22.—Quarantine regulations of increasing severity due to the spread of infantile paralysis were reported today from a number of cities and towns near New York. At Mount Pleasant, N. J., about 100 New York colonists from New York city with a few from Newark have been ordered to leave their bungalows along the Passaic river and return home.

**SUN BREVITIES**  
Best printing: Tobin's, Assn. Bldg. Racine tires, Beharrell's. Interest begins Saturday, Aug. 5, at The Central Savings bank. Mr. and Mrs. Clifford F. Davis are stopping at Hampton beach. When you have any real estate to sell, consult J. F. Donohue, 228 Hill-dreth bldg. Telephone. John Robertson of the Robertson Co. has returned from a business trip to New York city. Mrs. J. Harry Boardman and her children have returned from a three weeks' trip to Johnson's Creek, Minn. Manager Ben E. Fickett of the b. f. Keith theatre and Mrs. Fickett are spending their vacation at Milton, Mass. Dr. and Mrs. J. V. Meigs announce the engagement of their daughter, Euginia, to Mr. Thomas Talbot Clark of North Billerica. The trial of Albert J. Roper, indicted on the charge of murdering his father, Albert Roper, a well known dentist of Tewksbury, has been set for Monday, Sept. 18, at East Cambridge. William H. Wilson of this city will represent the defendant. John W. Myers of 104 South Whipple street, is quite popular as a vocalist, and this gift of his comes in quite handy in business. He is now selling automobile tires "for a song," it is heard. His proposition is elsewhere displayed in this paper. The vacation season began in earnest today. The baggage room in the Middlesex street station was one of the busiest places in the city and was filled with trunks, suitcases, etc., labelled for various summer resorts. The beaches were the most popular with Lowell people, although many who departed today were bound for the mountains or other resorts. Joseph Lynch, aged six years and living in Webster street, was struck by an automobile owned and operated by Herbert H. Saunders of Brockton in Central street near Tower's corner last night. The boy was taken to St. John's hospital where an examination showed that he had suffered no injuries. He was later taken to his home. A large black horse attached to a light delivery wagon owned by Patrick F. Cox & Co. of Broadway, became frightened while standing in Broadway about 11:30 o'clock last night and made a dash through the street. The animal made his way to the centre of the city and in passing through Merrimack square narrowly escaped striking several people. The wagon struck the large

**LOOKED LIKE CHICKEN**  
TOKIO, July.—The army conscription examiners in session at a town in the interior were astounded recently when a young Japanese woman dressed fashionably and carrying a parasol walked into the office and requested examination for military service. The applicant explained that "she" was a man and not a woman the examiner recalled an old Japanese custom of cor- cealing sex, a custom which as it afterward appeared, the applicant was following.

Old-time tradition held that a physically weak boy should be brought up as a girl from the belief that the child would thus escape the curse of death. The boy was attired in female costume and his hair was allowed to grow long like a girl's.

Yasukichi, the son of Kinzo Mishi kawa, the army applicant, was brought up as a girl. This tradition which is followed now only in remote districts. He learned to sew and to cook. He entered a cotton mill at Osaka as a worker as a female operative. No one suspected his real sex.

The examiners found the young man of perfect physique and health and he has entered the army in man's clothes.

**DOES SLOAN'S LINIMENT HURT RHEUMATISM?**  
Ask the man who uses it. He knows "the cure" and he's cured. Ask him when one 25 cent bottle of Sloan's Liniment cured him, writes one grateful user. It cured his Rheumatism, Sciatica, Neuritis, Backache, Stiffness and Stiffness. Don't put off getting a bottle of Sloan's. It will give you such welcome relief. It warms and soothes the sore, stiff painful place and you feel so much better. Buy at any drug store, only 25 cents.
